

Five Steps to Academic Success

Whether you are an A student or are looking to improve your grades, these five steps will put you on the path to academic success—and a bright future!

1. Get organized

Use a student planner. Take your planner to every class and record daily assignments, quizzes, tests, important dates, activities, and appointments.

Make daily to-do lists. Put the most important tasks at the top. Cross things off as they get done, and put unfinished tasks on the next day's to-do list.

Manage your time. If you never seem to have enough time, identify activities you can eliminate, shorten, or postpone. *Never sacrifice sleep to get everything done.*

2. Succeed in class

Have all homework done. In many classes, homework is a significant portion of your final grade. Don't think of homework as something you should do—think of it as something you must do.

Participate in class. Participating makes class more interesting and helps keep your mind focused. Ask and answer questions and participate in class discussions.

Ask for help. If you're having difficulty with a class, your teacher will be happy to help, but you need to ask. If there's something else that's making it difficult for you to succeed (a bully, problems at home, a health issue), see your counselor.
