

Expository Writing

[ik-spoz-i-tawr-ee rahy-ting]

Definition:

Expository writing explains or informs about a topic using clear, logical organization and evidence-based information, without personal opinions.

Expository Writing

Title: The Benefits of Recycling

Introduction

Recycling is a crucial practice that helps protect the environment. By converting waste into reusable materials, we can conserve natural resources and reduce pollution.

Body Paragraph 1: Conserving Resources

Recycling conserves natural resources like timber, water, and minerals. By reusing materials, we reduce the need for new raw materials, preserving these resources for future generations.

Body Paragraph 2: Reducing Pollution

Recycling helps reduce pollution caused by waste. It decreases the need for landfill space and lowers greenhouse gas emissions from waste decomposition and industrial production.

Body Paragraph 3: Saving Energy

Manufacturing products from recycled materials requires less energy than producing them from new materials. This energy saving helps reduce the overall environmental footprint of production processes.

Conclusion

Recycling offers numerous environmental benefits, including resource conservation, pollution reduction, and energy savings. By recycling, we contribute to a healthier planet for ourselves and future generations.

Expository Writing Handbook
