The Admission and Integration of Refugees in Europe Sebastian Meyer,Salvatore Fabio Nicolosi,Giacomo Solano,2025-03-31 The Admission and Integration of Refugees in Europe argues for a more interconnected understanding of laws and policies for the admission and integration of refugees and asylum seekers in the European Union Admission and integration normally refer to different phases of the migratory process but this demonstrates that they are inherently interconnected Certain legal statuses conferred in admission procedures are directly relevant for the integration prospects of migrants and the success or failure to integrate has potential repercussions for residence rights although refugees are in that respect better protected than other immigrants Legal pluralism further complicates the European context as admission is often seen as under European Union jurisdiction and integration as a Member State consideration However the book argues that this legal pluralism in fact helps us to better explain how interaction between admission and integration takes place across laws and legal orders Combining broad conceptual and constitutional analysis with closer readings of specific policies and country specific case studies this book demonstrates the potential for specific admission policies to either promote or hinder integration This book will be an important contribution to debates on European asylum and refugee law human rights and migrant integration policy

Family reunification for refugee and migrant children Florence Boreil,Ellen Desmet,Georgia Dimitropoulo,Mark Klaassen, A practical guide to assist legislators and legal practitioners in facilitating the reunification of refugee and migrant children with their families As a result of the sharp increase in the refugee and migrant population in recent years many children and their families have experienced family separation Member states are bound by various obligations related to family reunification and the practical reunification of refugee and migrant children with their family members has proved complex This handbook is a practical guide both to key legal standards and to promising practices in the field of family

reunification and restoring family links This publication is conceived as a point of reference for capacity building material technical assistance co operation projects and new practices for and with relevant authorities and institutions It focuses on the reunification of families with children in the context of international migration and in particular on reunification possibilities for unaccompanied and separated refugee and migrant children It presents an overview of legal principles of human rights children s rights refugee law and EU law relevant to family reunification and then discusses key features of family reunification procedures with promising examples of law and practice and relevant applicable standards The handbook contributes to achieving the objectives of the Action Plan on Protecting Refugee and Migrant Children in Europe 2017 2019
