Family Of Doctors:

Family Practice Stories Richard Feldman, 2014-07-15 An initiative of the Indiana Academy of Family Physicians and the Indiana Academy of Family Physicians Foundation Family Practice Stories is a collection of tales told by and about Hoosier family doctors practicing in the middle of the twentieth century The stories celebrate that time in America considered to be the golden age of generalism in medicine a time that conjures up Norman Rockwell's familiar archetypal images of the country family doctor and a time when the art of healing was at its zenith *Family Doctors and Public Policy* John R. Butler, J. M. Bevan, R. C. Taylor, 2025-08-01 Originally published in 1973 this book investigates the spatial distribution of General Practitioners GPs via the Designated Area Allowance DAA which was introduced in England amid controversy in 1966 It analyses the effectiveness of the DAA and presents the results of a survey conducted among general practitioners in England covering the patterns of geographical mobility among GPs the relationship between choice of practice area and other connections with the locality It also discusses the professional and personal differences between GPs in areas which are well served with GPs and those which are not The book provides an important historical discussion of the inequalities in the distribution of general practitioners in England in the late twentieth century **Family Doctors Say Goodbye** Lucy M. Candib, William L. Miller, 2023-08-17 This book considers the family doctor relationship and the process of ending that relationship What happens when a family doctor or someone like them deeply committed to long term relationships decides to end those commitments What's involved What are the embodied experiences for doctor and patient for doctor and staff for physician leader and others What comes next This book invites the reader to immerse in personal stories and reflections of family physicians who choose to retire from practice depart long standing leadership roles or shift from one place of deep relational commitments to something else These stories concern the particulars of family medicine and general practice but they share much with any vocation rooted in the duties challenges and rewards of relationships bound by covenant and not transaction This book is relevant to all professionals involved in healing relationships [Training of Family Physicians](#) United States.
