Activity Guide - Exploring One Column

Bar Charts

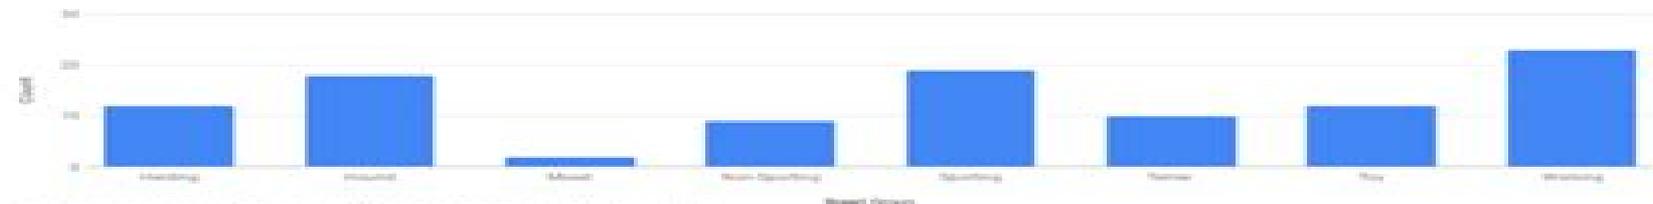

Do This

- Make a bar chart for each column in the "Dogs" dataset and categorize it as either "useful" or "not useful" by placing that column name in the table below. You do not need to insert a picture of the bar chart here, just the name of the column you tried. "Useful" here means that there is some distinguishable pattern or trend you can observe and the chart actually shows you something.

Useful	Not Useful
Maximum life span Minimum life span Maximum height Minimum height Maximum weight Minimum weight	Name Breed group Bred for

Chart

Paste an image of one of the charts that you believe is "useful" in the space below.

Created using Coolesting Apps Lab on 2023/03/30 from the Dogs table in project
 Values: Breed Group

Questions

- What is one piece of information someone could learn from the chart you pasted?

The maximum life span of a certain dog breed in years

- What type of data tends to produce useful bar charts? What patterns can you find about charts that are not useful?

The ones with quantitative data and other information that is more general and not specific to a certain thing.
