German Jet Genesis David Masters,1982 **German Jet Genesis** Outlet,Outlet Book Company Staff,Random House Value Publishing Staff,1987-02-01 **Jet Web** Dietrich Eckardt,2023-02-03 The present book describes the development history of turbojet engines mainly in the web type triangle Great Britain USA Germany Switzerland from early beginnings in the 1920s up to the first practical usage in the 1950s before the still unbroken grand impact of aero propulsion technology on global air traffic started interconnections are highlighted including the considerable impact of axial flow compressor design know how of the Swiss German company BBC Brown Boveri Cie on both sides The author reveals significant undercurrents which led to a considerable exchange and thus change in understanding of the technical historical perspective especially in the decisive years before WWII and thus closes gaps in the unilateral views of this ground breaking technical advancement The old Whittle vs von Ohain Saga is not repeated in full but addressed in sufficient detail to understand the considerably enlarged narrative scope **The Jet Race and the Second World War** S. Mike Pavelec,2007-02-28 In the 1930s as nations braced for war the German military build up caught Britain and the United States off guard particularly in aviation technology The unending quest for speed resulted in the need for radical alternatives to piston engines In Germany Dr Hans von Ohain was the first to complete a flight worthy turbojet engine for aircraft It was installed in a Heinkel designed aircraft and the Germans began the jet age on August 27 1939 The Germans led the jet race throughout the war and were the first to produce jet aircraft for combat operations In England the doggedly determined Frank Whittle also developed a turbojet engine but without the support enjoyed by his German counterpart The British came second in the jet race when Whittle s engine powered the Gloster Pioneer on May 15 1941 The Whittle Gloster relationship continued and produced the only Allied combat jet aircraft during the war the Meteor which was relegated to Home Defense in Britain In America General Electric copied the Whittle designs and Bell Aircraft contracted to build the first American jet plane On October 1 1942 a lackluster performance from the Bell Airacomet ushered in the American jet age The Yanks forged ahead and had numerous engine and airframe programs in development by the end of the war But the Germans did it right and did it first while the Allies lagged throughout the war only rising to technological prominence on the ashes of the German defeat Pavelec s analysis of the jet race uncovers all the excitement in the high stakes race to develop effective jet engines for warfare and transport **Area 51 - Black Jets** Bill Yenne,2018-03-06 In Area 51 Black Jets author and military historian Bill Yenne reveals Area 51 for what it truly is a clandestine arena for the United States most cutting edge technological innovators in military aviation

Zabecki,2015-05-01 World War II defined the 20th century and shaped many events from the decolonization of Africa to the rise and fall of the Berlin Wall This encyclopedia offers a focused overview of this complex and volatile era the circumstances that led up to war the underlying causes its unfolding and consequences Organized for quick and precise access More than 1300 entries by 150 experts are arranged in six sections for easy reference and consultation All the key ideas events actions weapons individuals and organizations that played vital roles in the war are covered from the Axis Pact to the Arab League from the OSS to the Africa Korps from the Chetniks to the Jedburghs from the battle of Kursk to Operation Mincemeat from Bill Donovan to Otto Skorzeny from Gestapo to SMERSH from Georgi Zhukov to Jean Leclerc from the 88 gun to the Norden Bombsight Covers important neglected subjects The Encyclopedia puts special emphasis on the often neglected operations in Eastern Europe and Russia A key section inspects and rates all the major weapons with handy tables for easy comparison And in recognition of the first large scale participation of women in the war the volume thoroughly documents their individual and unit contributions to the Allied effort Finally the encyclopedia discusses battlefield realities that explain for example why the airborne drops at Normandy succeeded and the ones at Arnheim failed A bibliography glossary maps photographs and weapons and data tables enhance the coverage Also includes 16 maps *Lippisch P 13a* Hans-Peter Dabrowski,1997-01-06 Unusual delta wing jet conceived by Germany during WWII **Project Natter** Brett Gooden,2005-12-31 In 1944 in response to the bombing of German cities and factories by the Allies an inventor named Erich Bachem developed Projekt Natter Viper an extraordinary highly secret vertical take off semi expendable single seat rocket fighter armed with a nose mounted honeycomb of 73 mm or 55 mm spin stabilized air to air rockets as well as 30 mm cannon The Natter was intended to offer high speed defense of key targets Once blasted into the air from its vertical launch tower the pilot of the Natter was to climb towards an enemy formation using an internal rocket target an enemy bomber and fire his battery of rockets He would then use the remaining kinetic energy to climb higher than the bombers in order to mount a

ramming attack Just before impact the pilot was to trigger a mechanism that would activate an ejection seat and separate the rocket unit which would return to earth by means of an automatically deployed parachute for reuse Relatively little has been published on the Natter and this book will provide a detailed and definitive account of this unusual but fascinating aircraft This will be required reading for all those interested in the history of the Luftwaffe during World War II particularly for those fascinated by the radical and revolutionary projects which German aircraft designers contrived toward the end of the Nazi regime

From Nazi Test Pilot to Hitler's Bunker Dennis Piszkiwicz,1997-11-25 This is the amazing story of Hanna Reitsch one of the most celebrated women of the Third Reich As a decorated test pilot for the Luftwaffe and a protege of Hitler Reitsch was one of a handful of women who achieved personal success by breaking from the traditionally defined role of wife and mother in Nazi Germany Reitsch s skills and accomplishments ultimately earned her an Iron Cross

and celebrity status A witness to the last days of the Third Reich Reitsch visited Hitler s Berlin bunker where she received orders to deliver letters designed to rally the Luftwaffe She left on this futile mission only minutes before Hitler s marriage to Eva Braun This is the amazing story of Hanna Reitsch a woman who excelled in an environment that for most was extremely repressive Germany before and during World War II She achieved personal success when she escaped the culturally defined role of wife and mother in Nazi Germany to live her passion for flying Reitsch began her career flying gliders setting both distance and endurance records in the 1930s As the war approached she became a test pilot for new and dangerous aircraft for the Luftwaffe The aircraft she flew included a large number of gliders and military aircraft including Focke Achgelis FW 61 Hubschrauber the first practical helicopter the jet powered piloted version of the V 1 buzz bomb and the rocket powered Messerschmitt 163 Her achievements as a test pilot made her a celebrity in Nazi Germany and earned her an Iron Cross and the friendship of Hitler As a friend of the Fuehrer she became an eyewitness to the fall of the Third Reich In the final days of World War II she flew with her friend and lover Luftwaffe General Robert Ritter von Greim to join Hitler in his bunker Minutes before Hitler was to marry Eva Braun Reitsch and von Greim on Hitler s orders flew from Berlin to Rechlin in a desperate attempt to rally the Luftwaffe and save the Reich After the war Reitsch was interviewed as a potential witness for the Nuremberg War Crimes Trials Her interviewer stated that Hanna s account of the flight into Berlin to report to Hitler and of her stay in the Fuehrer s bunker is probably as accurate a one as will be obtained of those last days It has remained so for half a century This book also recounts a vivid and remarkable encounter in a cemetery in Kitzbuehel Austria in June of 1945 between Leni Riefenstahl the filmmaker perhaps the only other woman to be so successful in the Third Reich and Hanna Reitsch During this chance encounter Hanna shows the letters of Josef and Magda Goebbels to Riefenstahl and the reader shares their shocking contents Hanna Reitsch found in the Nazi establishment opportunities and rewards for her achievements Consorting with the devil paid well yet in the end she was called on to pay back more than she had received Her story shows how hard it is for a woman to excel in a repressive society and how that success can lead to defeat and misery *Flying* ,1983
