Writing from Within: The Next Generation Bernard Selling, 2012-05-08 Everybody has something to say In an age when Twitter blogs and Tumblrs give millions the chance to write whatever is on their minds it seems that we re finding plenty of avenues in which to share it How then do we write what is worth saying How do we record our important memories so they ll be remembered How do we tell our personal stories the way they deserve to be told In keeping with successful earlier editions of *Writing from Within* Selling has stressed the idea that personal writing is a means to personal understanding Learning to write well starts with the subjects we know the best ourselves To write life stories writers explore vivid memories and re engage with the perspectives of their younger selves They learn to harness their inner critics and deal with fear They use their creative drive to remember details from their most significant memories The process of life story writing is as much one of self discovery as it is one of nostalgia These emotional connections to memories provide the backbone for Selling s writing instruction In this 25th anniversary edition of *Writing from Within* the original lessons of life story writing are included and significantly expanded upon Readers are given guidance on finding their earliest memories and on remembering details vividly Writing instruction is offered to accompany this process and ensure that readers life stories are full of clear accurate memories The core focus of the book is on unlocking memories and writing them as life stories However this Anniversary edition also provides substantial new material on Story pacing techniques Strategies for subtly adding exposition and denouement Revealing and unraveling character Writing stories within stories Developing unique voices within the same story Researching and writing family histories Expanding life story writing into novels or screenplays Advanced steps like creating visual motifs employing sub text and separating the writer from the central character Draft samples will show readers how their life stories will grow using the *Writing from Within* method Excerpts from past students life stories show the potential of the method Personal notes to readers keep them on track and their goals in perspective *Writing from Within The Next Generation* invites readers to find their voices and helps them along the way to doing so As much a tool for personal reflection as a guide to writing instruction the book represents a comprehensive discussion of the creative process Writers new and old will write with more skill understand themselves and their characters better and be able to turn their life experiences into art So learn to harness your inner critic Construct your own writing process Open the door to your past Give the characters voices Breathe some life into your story and leave something so future generations can get to know you
