Europe's International Migrants Data Sources Patterns And Trends:

Europe's International Migrants John Salt, Ann Singleton, Jennifer Hogarth, 1994 Comprises two sections The first describes the information system set up to monitor stocks and flows of international migration in Europe The second reviews trends in 23 countries from 1980 1992 and includes projections for 1992 2025 Also briefly discusses freedom of movement and migration policy in CIS countries the European Community and Eastern European countries The Politics of Immigration in Western Europe Martin Baldwin-Edwards, Martin A. Schain, 2013-10-11 This book is devoted to an analysis of how immigration has emerged as a political issue how the politics of immigration have been constructed and what have been the consequences in western Europe Specific coverage is given to France the UK Italy Austria and Germany along with the emerging EU policy process and some cross national comparisons Migration And Health In The European Union Rechel, Bernd, Mladovsky, Philipa, Devill?, Walter, 2011-12-01 This book can be read by anyone with an interest in migration and health whether as an advocate for migrants health as a student in a health profession researcher or policy maker It provides an ample orientation to the field in the European context Among other important raised issues it underlines an all too often neglected fact health is a human right By involving broad issues and problem areas from a variety of perspectives the volume illustrates that migration and health is a field that can not be allocated to a single discipline Carin Bjrngrn Cuadra Senior Lecturer Malm University Sweden Migrants make up a growing share of European populations However all too often their situation is compounded by problems with accessing health and other basic services There is a need for tailored health policies but robust data on the health needs of migrants and how best these needs can be met are scarce Written by a collaboration of authors from three key international organisations the European Observatory on Health Systems and Policies the EUPHA Section on Migrant and Ethnic Minority Health and the International Organization for Migration as well as leading researchers from across Europe the book thoroughly explores the different aspects of migration and health in the EU and how they can be addressed by health systems Structured into five easy to follow sections the volume includes Contributions from experts from across Europe Key topics such as access to human rights and health care health issues faced by migrants and the national and European policy response so far Conclusions drawn from the latest available evidence Comprehensive information on different aspects of health and migration and how they can best be addressed by health systems is still not easy to find This book addresses this shortfall and will be of major value to researchers students policy makers and practitioners concerned with migration and health in an increasingly diverse Europe International Migration Douglas S. Massey, J. Edward Taylor, 2004-03-25 International Migration Prospects and Policies offers a comprehensive up to date survey of global patterns of international migration and the policies employed to manage the flows It shows that international migration is not rooted in poverty or rapid population growth but in the expansion and consolidation of global markets As nations are structurally transformed by their incorporation into global markets people are displaced from

traditional livelihoods and become international migrants In seeking to work abroad they do not necessarily move to the closest or richest destination but to places already connected to their countries of origin socially economically and politically When they move migrants rely heavily on social networks created by earlier waves of immigrants and in recent years professional migration brokers have become increasingly common Developing countries generally benefit from international migration because migrant savings and remittances provide foreign earnings to finance balance of payments deficits and make productive investments Some developing nations have gone so far as to establish programs or ministries dedicated to the export of workers Developed nations in contrast focus more on the social and economic costs of immigrants and seek to reduce their numbers regulate their characteristics and limit their access to social services Over time receiving nations have gravitated toward a similar set of restrictive policies yielding undocumented migration as a worldwide phenomenon Globalization also creates infrastructures of transportation communication and social networks to put developed societies within reach In the latter ageing populations and segmenting markets create a persistent demand for immigrant workers All these trends are likely to intensify in the coming years to make immigration policy a key political issue in the twenty first century

Demography: Analysis and Synthesis, Four Volume Set Graziella Caselli, Jacques Vallin, Guillaume Wunsch, 2006-01-03 This four volume collection of over 140 original chapters covers virtually everything of interest to demographers sociologists and others Over 100 authors present population subjects in ways that provoke thinking and lead to the creation of new perspectives not just facts and equations to be memorized The articles follow a theory methods applications approach and so offer a kind of one stop shop that is well suited for students and professors who need non technical summaries such as political scientists public affairs specialists and others Unlike shorter handbooks *Demography Analysis and Synthesis* offers a long overdue thorough treatment of the field Choosing the analytical method that fits the data and the situation requires insights that the authors and editors of *Demography Analysis and Synthesis* have explored and developed This extended examination of demographic tools not only seeks to explain the analytical tools themselves but also the relationships between general population dynamics and their natural economic social political and cultural environments Limiting themselves to human populations only the authors and editors cover subjects that range from the core building blocks of population change fertility mortality and migration to the consequences of demographic changes in the biological and health fields population theories and doctrines observation systems and the teaching of demography The international perspectives brought to these subjects is vital for those who want an unbiased rounded overview of these complex multifaceted subjects Topics to be covered Population Dynamics and the Relationship Between Population Growth and Structure The Determinants of Fertility The Determinants of Mortality The Determinants of Migration Historical and Geographical Determinants of Population The Effects of Population on Health Economics Culture and the Environment Population Policies Data Collection Methods and Teaching about Population Studies All chapters share a common format

Each chapter features several cross references to other chapters Tables charts and other non text features are widespread Each chapter contains at least 30 bibliographic citations Einwanderungsregion Europa? Demographic and Cultural Specificity and Integration of Migrants, 2001 The New Demographic Regime United Nations. Economic Commission for Europe, United Nations Population Fund, 2005 This publication contains papers presented at the European Population Forum 2004 held in Geneva in January 2004 under the auspices of the United Nations Economic Commission for Europe UNECE and the United Nations Population Fund UNFP The Forum discussed a range of issues organised under four key themes global population and development trends from a European perspective childbearing and parenting in low fertility countries morbidity mortality and reproductive health challenges in transition economies international migration and ways of promoting management and integration *International Migration and Development* United Nations. Secretariat. Population Division, 1997 International migration has been widely recognized as a vital element in the development process For many countries an examination of Governments views on international migration issues related to documented international labour migration the complex interrelationship between international migration development Researching the European State Tony Bunyan, 1996 **Immigration Into Western Societies** Emek M. Uçarer, Donald James Puchala, 1997 The essays in this volume examine and evaluate responses to immigration pressures in Western countries Contributors tackle questions concerning the integrity of modern nation states the meaning of citizenship and the relevance of sovereignty in an increasingly interdependent world They also seek to demonstrate how migration flows relate to larger global problems such as unequal economic development population growth ethnic strife and environmental

degradation The chapters represent a balance between insights from academic research on migration issues and the pragmatic and experimental views of policy makers

Immigration to Denmark David Coleman, Eskil Wadensjö, 1999 As with other West European countries immigration has for many years been one of the hottest and most enduring issues of the political debate in Denmark and now once again revived because of the many refugees coming out of Kosovo In *Immigration to Denmark* the British demographer David Coleman places immigration in an international framework describing the importance of global population trends for international migration together with the main destinations of these migrations and in particular the migration streams to Europe Coleman discusses both ratified international treaties and national laws passed in recent years in an attempt to regulate migration towards the European continent The Swedish economist Eskil Wadensjö analyses the importance of immigrants to the economy in the 1990s while Soren Pedersen examines the actual development of immigration to Denmark from the 1960s onwards Finally Bent Jensen presents a review of the public debate on immigration topics in major Danish national newspapers from 1964 to the beginning of the 1990s
