**Evaluating Victim Services** Susan Salasin, Susan E. Salasin, 1981 This concisely edited work succeeds admirably in bringing the reader face to face with the tragedy of personal victimization and the need for public policies and programs that will assist victims of personal violence in their attempt to become survivors regaining both status and stature *Journal of Social Service Research* May 1983 National Evaluation of the Domestic Violence Victim's Civil Legal Assistance Program, 2000

**Crime Victims** Basia Spalek, 2017-09-16 From white collar to environmental crime and hate crime to sexual violence the study of victims and of the processes of victimisation is indispensable to understanding the full scale of the effects of crime in society In this book Basia Spalek offers a theoretically detailed and empirically rich account of how victimology has developed into a field that transcends academic disciplines and brings together researchers practitioners activists and community members This second edition of *Crime Victims* continues to be a comprehensive and up to date overview of the historical social political and cultural issues and trends in approaches to victims and victimisation It introduces victimological theory explores the impacts of crime on victims and the challenges involved in developing victim support services In addition acknowledging the increasing recognition of trauma as central to understanding victimisation it includes a therapeutic toolkit for victims offenders and practitioners working in and with the criminal justice system With Cutting Edge Research and Case Study sections added at the end of each chapter to highlight victimology as a vibrant and continuously developing field *Crime Victims* is an essential resource to a broad audience ranging from students of victimology criminology and sociology to practitioners and professionals

**Towards a Critical Victimology** Ezzat A. Fattah, 2016-07-27 *Towards a Critical Victimology* offers a serious challenge to the law and order perspective on victims rights and the false contest that is usually created between those rights and the rights of offenders It sheds light on the way victim initiatives emerged the timing of those initiatives their seemingly ulterior motives and the political interests they are meant to serve

(U.S.), 1996 **Coping with Burglary** R.V.G. Clarke, T. Hope, 2012-12-06 This book contains the papers given at a workshop organised by the Home Office England and Wales on the subject of residential burglary This is a topic of much public concern and I welcome the Home Office initiative in mounting the workshop The contributors were all researchers and criminologists who have made a special study of burglary and their brief was to consider the implications of their work for policy As a policeman I find their work of particular interest and relevance at this time when police performance as traditionally measured by the clear up rate is not keeping pace with the increase in the numbers of burglaries coming to police attention The finding that increases in burglary are more reflective of the public's reporting habits than of any significant rise in the actual level of burglary helps with perspective but offers little comfort to policemen The 600 0 increase in the official

statistics since 1970 is accompanied by a proportionate increase in police work in visiting victims searching scenes of crime writing crime reports and completing other documentation In some forces the point has been reached where available detective time is so taken up by the volume of visits and reports that there is little remaining for actual investigation But because of the random and opportunist nature of burglary it cannot be said with any confidence that increasing investigative capacity would make a significant and lasting impact on the overall burglary figures *Commerce, Justice, Science, and Related Agencies Appropriations for 2014* United States.
