Hume's Epistemology and Metaphysics Georges Dicker, 2002-01-04 David Hume's *Treatise on Human Nature* and *Enquiry Concerning Human Understanding* are amongst the most widely studied texts on philosophy. Hume's *Epistemology and Metaphysics: An Introduction* presents in a clear, concise, and accessible manner the key themes of these texts. Georges Dicker clarifies Hume's views on meaning, knowledge, causality, and sense perception step by step and provides us with a sharp picture of how philosophical thinking has been influenced by Hume. Accessible to anyone coming to Hume for the first time, *Hume's Epistemology and Metaphysics* is an indispensable guide to Hume's philosophical thinking.

Ageing and Caring Des O'Neill, 2013-10-08 Although it is something that affects all of us directly or indirectly, ageing can all too often be perceived negatively. *Ageing and Caring* is an essential, positive guide for older people, their carers, and their families. It seeks to outline not only the challenges that can arise from ageing but also how active and rewarding life can continue to be in old age. From practical advice on remaining active in retirement to guidance on coping with a loss of independence, *Ageing and Caring* provides advice on the complexities of ageing, covering an array of issues that older people and their carers may face. What you need to know about ageing: healthy ageing, managing your finances, and accessing health services. Common health problems experienced by older people, such as diabetes, sight, mobility, and memory difficulties, and loneliness and depression. The final years of life, such as moving into a nursing home, should it be required, and advance care planning. *Ageing and Caring* underlines the importance of well-being in old age and offers practical advice on how to maintain a happy and fulfilling life, whatever the challenges.

Congressional Record United States. Congress, 2009 The *Congressional Record* is the official record of the proceedings and debates of the United States Congress. It is published daily when Congress is in session. The *Congressional Record* began publication in 1873. Debates for sessions prior to 1873 are recorded in *The Debates and Proceedings in the Congress of the United States 1789-1824*, the *Register of Debates in Congress 1824-1837*, and the *Congressional Globe 1833-1873*.

Essentials of Law for Health Professionals Kim Forrester, Debra Griffiths, 2009-12-18 *Essentials of Law for Health Professionals 3e* has been thoroughly revised and updated throughout to reflect the most recent changes in legislation relevant to the provision of health care services in Australia. Employment status of health professionals and issues of work cover, health and safety obligations, anti-discrimination issues are clearly outlined and discussed in the new edition. Legal issues surrounding genetics, fertility, and surrogacy are reviewed in conjunction with the current position on abortion and wrongful deaths. The breadth of material is presented in a manner that is more in keeping with a student resource text rather than a law book. It emphasises major points and includes summaries on how the law relates to practice rather than merely stating the law. The new third edition continues to present contemporary issues relevant for Health Science students from the clinical setting through to management and employment as they apply to each state. Streamlined new edition includes updates to key chapters such as Chapter 5 Negligence, which has been completely rewritten to discuss

negligence by jurisdiction Chapter 8 Manipulation of Life now deals with topical and controversial issues such as abortion wrongful death tissue transplants genetics and infertility Chapter 10 Contractual and Industrial Elements of Professional Practice has been updated to include the most recent changes to Industrial Relations Law information that is essential for any Health Professional entering into employment Chapter 11 Statues Controlling Health Service Delivery has been revised with respect to drugs and continues to provide the significant legislation most likely to impact on the daily practice of the health professional namely poisons mental health legislation child and elder abuse and the notification of births and deaths New Chapter 12 Registration and Regulation of Health Professionals highlights the contemporary issues faced by health professionals with the implementation of National Registration Addition of legislation regulating research and a discussion of the legislative and common law controls on conducting research within Australian healthcare systems National Health and Medical Research Council Act Update all appendices and include the Decision Making Framework for Nurses plus Glossary Takes a multidisciplinary approach to the subject of health care law and includes case studies and activities Discussion on the implications of evidence based practice on the standard notionally attributed to the duty of care Fighting the Forever War Lisa M.
