

Behaviour Experiments

An experiment helps you learn new things by **trying them out and looking closely at what happens**. You think that sun light helps plants, you might do an experiment where you grow one with lots of sun and one with just a little. Then you watch to see which one grows better).

Behaviour experiments help you understand some of your worries and test them out in a safe way.

1

Worry/Fear

Before the experiment

What are you worried about?
What bad thing could happen?

2

Experiment

How could you try it out
to see what happens?

3

What you did

After the experiment

What happened?
What did you learn?

I want to wear my blue trainers to school but I'm worried other kids will laugh at me and think they are ugly.

I could wear them on Monday but only in the morning then get changed.

I wore them for a bit on Monday. No one said anything.
