## **From Sea To Sea In A Model T:**

Farewell to Model T E. B. White, 2003-05-31 In 1922 just out of college and at loose ends E B White set off across America in a Model T He left his map at home but packed his typewriter his true destination he tells us was the world of letters White wrote the richly humorous Farewell to Model T for The New Yorker in 1936 it was the first of his essays to bring him fame In From Sea to Shining Sea White conjures the unspoiled America that remained his most enduring subject The first essay of E B White s to become famous Farewell to Model T originally appeared in 1936 in The New Yorker as Farewell My Lovely It is rich in comic descriptions of the eccentricities of the car the demands it put on its devoted owners and the hardware and decorative accessories from 98 cent anti rattlers to the de luxe flower vase of the cut glass anti splash type that kept them pouring over the Sears Roebuck catalog If there was an owner s manual for the flivver it didn t begin to divulge what the owner needed to know That s where theory speculation superstition and metaphysics came in I remember once spitting into a timer White recalls not in anger but in a spirit of research It is published for the first time with Sea to Shining Sea in which White conjures the America that he had discovered as a 22 year old during a cross country trip in his Model T The year was 1922 the same the year that Fitzgerald and Hemingway went to Paris to find themselves In it he would write My own vision of the land my own discovery of it was shaped more than by any other instrument by a Model T Ford a slow motion roadster of miraculous design strong tremulous and tireless from sea to shining sea From Sea to Sea in a Model T Yvonne Ellingson, 1990 **Sea to Sea in a Model T** Don Van Polen, 2014-03-16 SEA TO SEA IN A MODEL T It was a hundred years ago that Henry Ford introduced the first Model T Ford It was the car that changed America No other product made in this country would have such a profound effect on the nation s economy as Henry s Old Car Soon one out of seven workers in America would be in the auto industry and half of all cars on the road would have the name FORD written on them He would later build the largest factory in the world the River Rouge Plant outside Detroit Over 100 000 people would work there in one day For the next 20 years Henry Ford would build more than 15 million Model T s Never were so many cars of one style built than that old car It was the automobile that put America on wheels Henry Ford claimed that his Model T would be the last car the country would ever need Join the Van Polens as they travel from the Puget Sound in Washington State to the Eastern most town and lighthouse in America Along the way they describe the landscapes with delightful interludes of appropriate music as well as the fascinating story of Henry Ford s Old Car We ve had at least two generations of traveling in the fast lanes and freeways and it s time to see the country from the slow lane Slow roads have a sense of discovery they tell us about the past and take us to places where real America lives Driving that old car may not be the fastest way or the shortest it may not be the easiest but it certainly is the best way Henry Ford s old car was meant for those old roads *The Official Guide for GMAT Review 2015 with Online Question Bank and Exclusive Video* GMAC (Graduate Management Admission Council), 2014-06-26 This is the only official study guide from the creators of the test and delivers more than 900
