Face To Face With Political Islam:

Face to Face with Political Islam François Burgat, 2003 The portrayal of Islamic movements as a tide of religious fanaticism threatening the West and major participants in the coming clash of civilizations has provoked a multifaceted debate of great significance to the future of international relations This text argues that political Islam's desire to restore a culture distorted by colonization does not necessarily compromise its progress to more democracy and greater tolerance From Rabat to Gaza through Algiers and Cairo the author carried out his enquiry through interviews with prominent Islamists and he allows them to speak for themselves in the book Among the issues addressed are the relationship between Islam and modernity Islamism and women and questions of violence Bloomsbury Publishing *Understanding Political Islam* François Burgat, 2019-12-20 *Understanding Political Islam* retraces the human and intellectual development that led François Burgat to a very firm conviction that the roots of the tensions that afflict the Western world's relationship with the Muslim world are political rather than ideological In his compelling account of the interactions between personal life history and professional research trajectories Burgat examines how the rise of political Islam has been expressed first in the Arab world then in its interactions with European and Western societies An essential continuation of his work on Islamism Burgat's unique field research and political trespassing marks an overdue challenge to the academic mainstream *Political Islam* Frederic Volpi, 2013-10-31 As the topic of political Islam gains increased visibility in international politics and current affairs it has become more difficult to navigate the vast literature that is devoted to explaining this phenomenon This reader provides the student with an accessible and comprehensive introduction to the study of political Islam Offering a clear route to the most influential literature in the field the diverse range of viewpoints presented allows students to obtain a detailed authoritative and critical perspective on the most pressing questions of the post 9/11 era With detailed introductory chapters and clear presentation of existing literature thematically arranged sections cover modern understandings and explanations of Islamism the emergence and development of Islamist groups political responses to the phenomenon democracy and democratization multiculturalism political violence and terrorism globalization the future of political Islam This overview of political Islam will help students at all levels to appreciate its many manifestations and dimensions A relevant text to introductory courses on history international affairs government and sociology this reader is an essential tool for students of the Middle East Muslim politics religion in politics and Islamism *The Rise of Political Islam* Muzaffer Ercan Yılmaz, 2024-07-14 The rise of political Islam in the Middle East region and elsewhere in the post Cold War era is one of the key geopolitical phenomena of our time Political Islam tends to challenge the status quo culturally socially and more important politically This important new book explores the issue deeply focusing particularly on real or perceived external threats to social identity a neglected dimension of political Islam Three cases are examined those of Turkey Egypt and Algeria where political Islam has challenged sometimes quite seriously the secular state structure Many policy implications

in terms of more effectively coping with these politico religious challenges are made by the study With its focus on understanding the link between social identity and religiously driven social and political conflicts the book will be a unique and valuable resource for policy advisors and think tanks and all researchers students and scholars working on religiously driven conflicts

Political Islam and European Foreign Policy Michael Emerson, Richard Youngs, 2007 The time is ripe for the European Union its institutions and member states to undertake an explicit review of its current policy of benign neglect towards the broad collection of Muslim democrat parties in the Mediterranean Arab states The group of experts assembled to produce this new book adduces mounting evidence that this policy may lead to unintended consequences such as the reinforcement of anti democratic regimes and radical Islamism Their arguments favour a broad inclusion of Muslim democrats in EU initiatives aiming at the reform of governance and the development of civil society without extending to them any singular exclusive or unsolicited privileges

Political Islam in Sudan Khalid Yousif Khalafalla, 2004 *The Future of Political Islam* Graham E. Fuller, 2003-05-12

Graham E Fuller brings a lifetime of experience in the Muslim world to shed light on how common even universal political behavior takes on a distinctively Islamic guise in the Muslim world. By examining the social economic and political context he explains that the struggle between the fundamentalists and liberals will determine the future of political Islam. This sweeping survey of trends in the Muslim world from Morocco to the Philippines explores the diversity of Islamic political activity and makes clear that Islamic political movements represent a broad spectrum of outlook and behavior. Whether traditional or liberal these movements have become an important vehicle for the concerns aspirations and grievances of vast numbers of Muslims worldwide and are a natural outgrowth of Muslim history. Fuller contends that while political Islam is the dominant intellectual current a focus on radicalism and extremism blinds us from another trend liberal political Islam. The issues are not what is Islam but what Muslims want and not whether Islam will play a central role in politics but which Islam. As Islam has become the vocabulary for political and social expression it has come to serve various agendas.

Returning to Political Parties? Myriam Catusse, Karam Karam, 2010. Are Arab parties facing a predicament? Are they paying the price of repression and limited pluralism? Have they become obsolete to the benefit of other political groups and mobilization modes such as communities tribes *asabiyyat* or to the disadvantage of non governmental organizations associations and social movements? While some predicted the end of parties in the region as a result of authoritarian political systems doesn't the recent transition from the one party rule towards a fragile plural party system in many countries put again party organizations in the spotlight? Most of the time contemporary Arab parties have little mobilizing power. Yet some are crawling out of underground activities and trying their hands at the exercise of power after years of oppositions. Others and mainly on the Islamist arena assert themselves as first hand mobilization structures able in certain cases to compete with regimes in power. This book addresses those research questions. Emphasizing new and unpublished data the book's diverse contributions tackle holistically party life in six countries that have adopted very different political pathways: Yemen, Bahrain, Lebanon, Morocco, Algeria, and Iraq. All the studies approach the decline or the revival of the parties from a long term historical perspective mainly with regard to political institutions in those six countries. The studies focus on the rules of party games on the junction between the right to politics and political rights. They reveal the fine tuning between ideological frameworks and political strategies. They raise questions about the renewal of elites forms of militant activism the array of parties political activities particularly social ones. They examine the issue of identity construction and political solidarities in the framework of the nation state or in contradiction with it. As a final point the book inquires about how party life in those six countries accounts for political transformations possible democratization of regimes forms of domination that are played out within those regimes the emergence of the breakdown of leaderships and finally the rationale behind mobilization and collective action. This book is published with the support of the program on Political Party Development in the Arab World: Algeria, Bahrain, Iraq, Lebanon, Morocco, and Yemen, financed by the International Development Research Center, Ottawa, Canada. This

publication gathers a series of studies undertaken within this framework More studies are available on the project s website www.appstudies.org The opinions expressed in this book are the responsibility of their authors and do not necessarily reflect the opinions of the Lebanese Center for Policy Studies or the International Development Research Center The chapters in the book have been translated from French and Arabic to English by Nathanel London Françoise Gillepsie Nathalie Nahas Angelique Bains Jennifer Berry and Assaad Makary
