Faith And Modernity:

Faith and Modernity Philip Sampson, Vinay Samuel, Chris Sugden, 1994 The context for Christian mission is the world of modern technology and modern thought Yet how well do we really understand modernity This book sets out the ideas discussed at a conference of the Lausanne Committee on World Evangelisation held in Uppsala Sweden in 1993 *Faith and Modernity* John Alderdice, 2018-05-09 An outcome of the Enlightenment was the conviction that human reason was the only proper source of authority and legitimacy The success of the scientific method resulted in profound questioning of political structures and religious orthodoxy and it was assumed that rational thinking would bring a new world order characterised by freedom tolerance and progress and a few generations of education would result in the disappearance of religious faith It has become increasingly difficult to believe in either the universal progress of a rational tolerant and free global society or that religious belief is withering away Some of the military and industrial technology developed from scientific advancement is threatening the very survival of our species and it is argued that the increasing strength of religious convictions is deepening the divisions between our societies However there are alternative and more hopeful possibilities than setting scientific reason over against religious faith and some time ago Dr Mohammad Shomali and Lord Alderdice organized a small conference in Oxford of Iranian Shia thinkers and Protestant theologians from Britain and Ireland on Faith and Modernity to explore finding a better way forward This small volume makes available the papers presented at that Oxford meeting

Religions of Modernity Stef Aupers, Dick Houtman, 2010-07-07 *Religions of Modernity* challenges the social scientific orthodoxy that once unleashed the modern forces of individualism science and technology inevitably erode the sacred and evoke the profane The book's chapters some by established scholars others by junior researchers document instead in rich empirical detail how modernity relocates the sacred to the deeper layers of the self and the domain of digital technology Rather than destroying the sacred tout court then the cultural logic of modernization spawns its own religious meanings unacknowledged spiritualities and magical enchantments The classical theoretical accounts of modernity by Max Weber Emile Durkheim and others it is argued in the introductory chapter already hinted that there's a future for such religions of modernity Contributors Stef Aupers Kelly Besecke Kirsten Marie Bovbjerg Siobhan Chandler Olav Hammer Dick Houtman Murray Lee Carly Machado Karen P rna Adam Possamai Linda Woodhead and Dorien Zandbergen *Faith and Modernity* Chris Sugden, 1994 The context for Christian mission is the world of modern technology and modern thought Yet how well do we really understand modernity This book sets out the ideas discussed at a conference of the Lausanne Committee on World Evangelisation held in Uppsala Sweden in 1993 *Faith and Modernity* John Alderdice, Mohammed Shomali, 2018

Emerging Evangelicals James S. Bielo, 2011-10 The Emerging Church movement developed in the mid 1990s among primarily white urban middle class pastors and laity who were disenchanted with America's conservative Evangelical sub culture It is a response to the increasing divide between conservative Evangelicals and concerned critics who strongly

oppose what they consider overly slick corporate and consumerist versions of faith. A core feature of their response is a challenge to traditional congregational models often focusing on new church plants and creating networks of related house churches. Drawing on three years of ethnographic fieldwork, James S. Bielo explores the impact of the Emerging Church movement on American Evangelicals. He combines ethnographic analysis with discussions of the movement's history, discursive contours, defining practices, cultural logics, and contentious interactions with conservative Evangelical critics to rethink the boundaries of Evangelical as a category. Ultimately, Bielo makes a novel contribution to our understanding of the important changes at work among American Protestants and illuminates how Emerging Evangelicals interact with the cultural conditions of modernity, late modernity, and visions of postmodern Christianity. **Religion and Modernity** Detlef Pollack, Gergely Rosta, 2017-11-28. This is not a book that provides a new integrated theory of religious change in modern societies but rather one that develops theoretical elements that contribute to the understanding of some contemporary religious developments. Most of the approaches in sociology of religion are prone to emphasise either processes of religious decline or of religious upswing. For example, secularization theory usually includes a couple of relevant factors such as functional differentiation, economic affluence, or social equality in order to account for religious change. However, the result of such a theory's empirical analyses seems to be certain in advance, namely that the social relevance of religion is decreasing. In contrast, the religious market model devised by sociologists of religion in the US is inclined to detect everywhere processes of religious upsurge. **Religion and Modernity: An International Comparison** avoids a purely theoretically based perspective on religious changes. For this reason, Detlef Pollack and Gergely Rosta do not begin with theoretical propositions but with questions. The authors raise the question of how the social significance of religion in its various facets has changed in modern societies and explain what factors and conditions have contributed to these changes. **Religion, Modernity and Postmodernity** Paul Heelas, 1998-07-07. **Religion, Modernity and Postmodernity** is the first book to engage the study of religion with contemporary theorizing about culture. It addresses important issues such as whether there are postmodern forms of religion, whether theories of religion framed in terms of modernity can be recast to suit new or emerging circumstances, and how the study of religion can be better integrated with recent developments in the study of culture.

Religion and Modernity Detlef Pollack, Gergely Rosta, This work describes how the social significance of religion in its various facets has changed in modern societies and pinpoints the factors and conditions that have contributed to these changes. **Faith Challenges Culture** Paul O'Callaghan, 2021-10-25. The modern culture we live off and take for granted is an elevated, sophisticated one containing a great variety of precious anthropological insights and strengths with a surprising adaptability and openness to absorb, to clarify, and to unite. However, in the present moment, it comes across in many cases as a culture detached from the faith that gave life to it in the first place and without which it may simply not survive. In fact, it has become of late a fragile culture, a culture less and less capable of adapting and absorbing and uniting. This may be seen in

the way many aspects of modern culture and public life have fallen into a pathology of rationalism individualism inequality discord ingratitude This may be seen in our attempt to live in isolation from our fellow humans unwilling to recognize the world we live in and the privileges we enjoy as God s gifts Faith Challenges Culture A Reflection of the Dynamics of Modernity describes the process in two directions how culture challenges faith to provide answers that have not been previously given and how faith challenges culture not only by showing modern culture s fragility and ambivalence but also by posing new questions

Theory of Religious Cycles Mikhail Sergeev,2015-09-29 In *Theory of Religious Cycles* Tradition Modernity and the Bah Faith Mikhail Sergeev offers a new interpretation of the Soviet period of Russian history as a phase within the religious evolution of humankind by developing a theory of religious cycles which he applies to modernity and to all the major world faiths of Judaism Buddhism Christianity and Islam Sergeev argues that in the course of its evolution religion passes through six common phases formative orthodox classical reformist critical and post critical Modernity which was started by the European Enlightenment represents the critical phase of Christianity a systemic crisis that could be overcome with the appearance of new religious movements such as the Bah Faith which offers a spiritual extension of the modern worldview

Religion and Rationality Jürgen Habermas,2014-10-15 This important new volume brings together Habermas key writing on religion and religious belief Habermas explores the relations between Christian and Jewish thought on the one hand and the Western philosophical tradition on the other In so doing he examines a range of important figures including Benjamin Heidegger Johann Baptist Metz and Gershom Scholem In a new introduction written especially for this volume Eduardo Mendieta places Habermas engagement with religion in the context of his work as a whole Mendieta also discusses Habermas writings in relation to Jewish Messianism and the Frankfurt School showing how the essays in *Religion and Rationality* one of which is translated into English for the first time foreground an important yet often neglected dimension of critical theory The volume concludes with an original extended interview also in English for the first time in which Habermas develops his current views on religion in modern society This book will be of great interest to students and scholars in theology religious studies and philosophy as well as to all those already familiar with Habermas work

The Future of Reason, Science and Faith Revd Dr J Andrew Kirk,2013-05-28 Focusing on the history of ideas this book explores important questions concerning knowledge in relation to philosophy science ethics and Christian faith Kirk contributes to the current debate about the intellectual basis and integrity of Western culture exploring controversial issues concerning the notions of modernity and post modernity Repositioning the Christian faith as a valid dialogue partner with contemporary secular movements in philosophy and ethics Kirk seeks to show that in post Christian Europe the Christian faith still possesses intellectual resources worthy to be

reckoned with This book's principal argument is that contemporary Western society faces a cultural crisis It explores what appears to be an historical enigma namely the question of why Western intellectual endeavours in philosophy and science seem to have abandoned the search for a source of knowledge able to draw together disparate pieces of information provided by different disciplines Kirk draws conclusions particularly in the area of ethical decision making from this apparent failure and invites readers to consider Christian theism afresh as a means for the renewal of culture and society

Abiding Grace Mark C. Taylor, 2018-10-02 Post war post industrialism post religion post truth post biological post human post modern What succeeds the post age Mark C Taylor returns here to some of his central philosophical preoccupations and asks What comes after the end Abiding Grace navigates the competing Hegelian and Kierkegaardian trajectories born out of the Reformation and finds Taylor arguing from spaces in between showing how both narratives have shaped recent philosophy and culture For Hegel Luther's internalization of faith anticipated the modern principle of autonomy which reached its fullest expression in speculative philosophy The closure of the Hegelian system still endures in the twenty first century in consumer society financial capitalism and virtual culture For Kierkegaard by contrast Luther's God remains radically transcendent while finite human beings and their world remain fully dependent From this insight Heidegger and Derrida developed an alternative view of time in which a radically open future breaks into the present to transform the past demonstrating that far from autonomous life is a gift from an Other that can never be known Offering an alternative genealogy of deconstruction that traces its pedigree back to readings of Paul by way of Luther Abiding Grace presents a thoroughgoing critique of modernity and postmodernity's will to power and mastery In this new philosophical and theological vision history is not over and the future remains endlessly open

Christianity, Modernity and Culture John Stenhouse, G. A. Wood, 2005 For much of the twentieth century New Zealand historians like most Western scholars largely took it for granted that as modernity waxed religion would wane Secularization the fading into insignificance of religion would distinguish the modern era from previous ages Until the 1980s only a handful of scholars around the world raised serious empirical and theoretical questions about a Grand Theory that had become central to the self understanding of the social sciences and of the modern world Heated debates since then and the unmistakable resurgence of world religions have raised fundamental questions about the empirical and theoretical adequacy of secularization theory and especially about how far it applies outside Europe This volume revisits New Zealand history when secularization is no longer taken for granted as the Only Big Story that illuminates the country's social and cultural history Contributors explore how New Zealanders diverse religious and spiritual traditions have shaped practical everyday concerns in politics racial and ethnic relations science the environment family life gender relations and other domains

[A Catholic Modernity?](#) James L.

Heft, 1999-09-30 This book offers a series of reflections on the state of Christianity and especially Catholicism in the world today. The centerpiece of the volume is a lecture by the renowned philosopher Charles Taylor from which the title of the book is taken. The lecture delivered at Dayton University in January of 1996 offered Taylor the opportunity to speak about the religious dimensions of his intellectual commitment, dimensions left implicit in his philosophical writing. In fact, this is the only place where Taylor, a Roman Catholic, spells out his theological views and his sense of the cultural placement of Catholicism, its history and trajectory. He uses the occasion to argue against the common claim that obstacles to religious belief in modern culture are epistemic, that they have to do with the triumph of the scientific worldview. The real obstacles, says Taylor, are moral and spiritual, having to do with the historic failures of religious institutions. Four well-known commentators on religion and society, two Protestant and two Catholic, were invited to respond to Taylor's lecture: William M. Shea, George Marsden, Jean Bethke Elshtain, and Rosemary Luling Haughton. Their chapters offer a variety of astute reflections on the tensions between religion and modernity and, in particular, on the role that Catholicism can and should play in contemporary society. The volume concludes with Taylor's perceptive and thoughtful response to his interlocutors. **A Catholic Modernity** provides one of the most thoughtful conversations to date about the place of the Catholic Church in the modern world and, more generally, about the role of religion in democratic liberal societies. **Religion, Modernity, and Politics in Hegel**

Thomas A. Lewis, 2011-07-28 This study analyzes Hegel's philosophy of religion in relation to ongoing debates about the relation between religion and politics as well as the history of their conceptualization in the modern West. Lewis argues that recent, non-traditional, more Kantian interpretations of Hegel's project open up a new understanding of his treatment of religion.
