[Stranger America](#) Josh Toth, 2018-04-30 Contradictory ideals of egalitarianism and self reliance haunt America's democratic state We need look no further than Donald Trump's 2016 presidential campaign and victory for proof that early twentieth century anxieties about individualism race and the foreign or intrusive other persist today In *Stranger America* Josh Toth tracks and delineates these anxieties in America's aesthetic production finally locating a potential narrative strategy for circumnavigating them Toth's central focus is simply strangeness or those characters who adamantly resist being fixed in any given category of identity As with the theorists employed Nancy Iek Derrida Freud Hegel the subjects and literature considered are as encompassing as possible from the work of Herman Melville William Faulkner James Weldon

Johnson and Nella Larsen to that of Philip K Dick Woody Allen Larry David and Bob Dylan from the rise of nativism in the early twentieth century to object oriented ontology and the twenty first century zombie craze from ragtime and the introduction of sound in American cinema to the exhaustion of postmodern metafiction Toth argues that American literature music film and television can show us the path toward a new ethic one in which we organize identity around the stranger rather than resorting to tactics of pure exclusion or inclusion Ultimately he provides a new narrative approach to otherness that seeks to realize a truly democratic form of community

Golden Words: a selection of eloquent extracts from the writings of the most eminent divines of the fifteenth, sixteenth, and seventeenth centuries, etc, 1871 Holy thoughts on holy things, selected and arranged by E. Davies Holy thoughts, 1882 *The wisdom of the wise. Scripture texts, with short comments from approved authors* J. C. O., 1873 Goodly Pearls; Or, Choice Extracts from Christian Writers ... Christian writers, 1860 **The True Christian Religion** Emanuel Swedenborg, 1873 *Society and the Death of God* Sal Restivo, 2021-06-08 This book advances the strong programme that sociology and anthropology provide a scientific foundation for arguing that God and the gods are human creations Contending that religion is one but not the only way to systematize and institutionalize the moral order of a society the author argues that religion reflects the fundamental human need for belonging and the social function of compassion As such our transcendental and supernatural ideas are really concerned with our everyday lives in communities and faced with the severity and immediacy of the global problems with which the world is confronted existential threats it is increasingly important to abandon delusions and correct our mistake in reference not by eradicating religion but by grounding it more explicitly in earthly matters of community social solidarity belonging and compassion A wide ranging study of the roots nature and purpose of religion and theistic belief *Society and the Death of God* will appeal to sociologists social theorists and philosophers with interests in the scientific study of religion and the role of religion in the life of humankind *The infallible book; or, Biblical inspiration* William Frith, 1892 *The Christian era, ed. by J. Mountain* Christian era Bible and prayer union, Arcana cœlestia. The heavenly arcana contained in the holy Scripture, or Word of the Lord unfolded in an exposition of Genesis and Exodus. Together with a relation of wonderful things seen in the world of spirits and in the heaven of angels Emanuel Swedenborg, 1891 A Compendium of the Theological Writings of Emanuel Swedenborg Emanuel Swedenborg, 1875 **The Church of England magazine** [afterw.] **The Church of England and Lambeth magazine**, 1874 Fear and Trembling Søren Kierkegaard, 2021-11-30 This newly translated *Fear and Trembling* a foundational document of modern philosophy and existentialism could not be more apt for our perilous times First published in 1843 under the pseudonym Johannes de silentio John of Silence Søren Kierkegaard s richly resonant *Fear and Trembling* has for generations stood as a pivotal text in the history of moral philosophy inspiring such artistic and philosophical luminaries as Edvard Munch W H Auden Walter Benjamin and existentialist Jean Paul Sartre Now in our era of immense uncertainty renowned Kierkegaard scholar Bruce H Kirmmse eloquently brings this classic work to a new generation of readers Retelling the biblical story of the binding of Isaac *Fear and*

Trembling expounds on the ordeal of Abraham who was commanded by God to sacrifice his own son in an exceptional test of faith. Disgusted at the self-certainty of his own age, Kierkegaard investigates the paradox underlying Abraham's decision to allow his duty to God to take precedence over his duties to his family. As Kierkegaard's narrator explains, the story presents a difficulty that is not often considered: namely, that after the ordeal is over and Isaac has been spared at the last moment, Abraham is capable of receiving him again and living normally, even joyfully, for the rest of his days. Almost inexplicably, Abraham had faith and did not doubt. Deftly tracing the autobiographical threads that run throughout the work, Kirmmse initially, in his lucid and engaging introduction, demystifies Kierkegaard's fictive narrator, Johannes de silentio, drawing parallels between Abraham's willingness to sacrifice his son and the author's personal sacrifices. Ultimately, however, Kirmmse reveals *Fear and Trembling* as a fiercely polemical volume designed to provoke the reader into considering what is actually meant by the word faith and whether those who consider themselves true believers actually are. With a vibrancy almost never before seen in English and a matchless grasp of the intricacies of Kierkegaard's writing process, Gordon Marino Kirmmse here definitively demonstrates Kierkegaard's enduring power to illuminate the terrible wonder of faith.
