Eleonora's Falcon Harmut Walter, 1979-05 Named after a Sardinian princess of the fourteenth century who established laws protecting falcons Eleonora s falcon is the only European bird to breed in autumn and feed its brood on the mass of birds that migrate from Europe to Africa between July and October It breeds on small Mediterranean islands in colonies of up to 200 pairs and hunts often in groups preying on more than 90 species of migrant birds During the winter this falcon visits the rain soaked woodlands of Madagascar In this study illustrated beautifully and extensively with 59 line drawings and 38 photographs Hartmut Walter shows how the unique geographical and biological situation of *Falco eleonora* makes the species health an important indicator of environmental decay For though it lives in relatively isolated areas Eleonora s falcon nevertheless may ingest the many pollutants contained in its diet of birds migrating from industrial Europe Walter who has studied raptors on several continents and has been an ornithologist since his early youth examines several discrete colonies of Eleonora s falcon He concentrates on the species intraspecific behavior and ecology such as the falcons aggressive actions hunting strategies and response to fluctuating environmental conditions and investigates their evolutionary past The Falcon and the Lark Neville Peat, 2013-12-16 Part memoir part natural history a journey through Central Otago and encounters with New Zealand s magnificent native falcon An evocative seasonal journal in which the author explores his roots in the rock and tussock country of Central Otago He uncovers all that is curious and distinctive there in a rich blend of autobiography folklore and natural history Along the way he meets up with a mystical free spirit the Lark and together they strike up an engaging friendship Woven throughout the narrative is an intimate portrait of New Zealand s native falcon

karearea the wildest thing in our skies Whether soaring gliding or attacking our swiftest bird of prey is sovereign of our skies and yet little known and understood Neville Peat is one of New Zealand's finest writers and in this delightful book combines his skill as an essayist and natural historian and his instincts and breadth of knowledge as a conservationist
