## **Faces Of Poverty:**

The Faces of Poverty in North Carolina Gene R. Nichol, 2021-11-01 More than 15 million North Carolinians today live in poverty More than one in five are children Behind these sobering statistics are the faces of our fellow citizens This book tells their stories Since 2012 Gene R Nichol has traveled the length of North Carolina conducting hundreds of interviews with poor people and those working to alleviate the worst of their circumstances In an afterword to this new edition Nichol draws on fresh data and interviews with those whose voices challenge all of us to see what is too often invisible to look past partisan divides and preconceived notions and to seek change Only with a full commitment as a society Nichol argues will we succeed in truly ending poverty which he calls our greatest challenge

*Faces of Poverty* Jill Duerr Berrick, 1995 This study aims to dispel the misconceptions and myths about welfare and the welfare population that have clouded the true picture of poverty in America It offers insights into each of the reforms under consideration and demonstrates their implications for

The Face of Africa Stan Chu Ilo, 2012-12-01 This book is a call on Africans and non Africans to once more believe in the possibility of a better future for Africa In these pages Stan Chu Ilo writes of his experience and the experiences of many young Africans like himself who are disturbed by the present condition of Africa He writes about the challenges facing most Africans who are growing up in the African continent without any hope of quality education without any guarantee of adequate food water housing and clothing without any hope of getting a job and without any prospect of living in peace with their neighbors He writes of the sad situation of millions of young Africans who are dying of malaria and HIV AIDS and the African women whose fate and fortune have been shackled by a male dominated society He questions the bases of the existence of the failed states of Africa who are caught up in a cycle of violence and disorder and who are not asking the right questions about the future of their nations He argues that corruption excessive authoritarianism a stubborn hold on power and lack of openness to consensus building among some African leaders insult the cultural value of Africans with regard to a sense of community love and solidarity He also writes of the pain of globalization the debt burden immigration and trade restrictions on Africans and African countries exploitation of ordinary Africans by fellow Africans and Western governments and business conglomerates He wonders why many Western nations should turn their backs on Africa when they all share some responsibility in bringing Africa to her knees However even though many Africans have become exhausted in the battle for national survival and for a living space to pursue their ordered ends this book proposes that Africans should not claim perpetual victimhood rather they should stand up once more and work for a better tomorrow which is possible and within their reach Ilo insists that the imposing mountains of economic and social ruin the rising moans and groans of numberless Africans should not weaken the inner energy and ardent hopes of millions of Africans struggling against the untested assumption that the cracking social political and economic foundations of present day Africa are incapable of supporting the structures of a new Africa The face

of Africa today is ugly but behind the ugly face is the beauty that has been distorted by historical and cultural factors The present condition of Africa is only the sign of the urgent need for the peoples of Africa to brace up for the long and hard journey to reclaim their future Ilo outlines how non Africans who are interested in the African condition can be involved with the peoples of Africa A proper understanding of the African continent and her peoples her history and cultural evolution is a necessary first step for those who wish to be engaged with the Africans His total picture approach model as the key to interpreting the African condition and in comprehensively addressing the challenges facing Africa offers a helpful and original tool in understanding Africa It helps to overcome the stereotypes prejudices and paternalism which non Africans apply in their reading of African history and their relation with the African reality With masterly skills a keen sense of history a balanced perspective and objectivity Ilo identifies the constraints to growth and innovation in Africa in terms of the low stocks in the human capital and cultural development He introduces a new concept in the interpretation of the African condition homelessness in terms of cultural and existential crises that confront Africans today His conclusion is that cultural and human development is the irreducible decimal in any proposal for the transformation of the continent that grassroots village based action should be preferred over bogus and unworkable national approaches to African development

*The Faces of Poverty in North Carolina* Gene R. Nichol, 2018-11-02 These are the faces of poverty in North Carolina scores of homeless men women and children take refuge in makeshift camps barely hidden in the woods near some of our most affluent neighborhoods Hundreds wait in lines hours long to receive basic health care at underfunded free clinics In large cities and small towns children especially children of color rely on meals at their schools to keep hunger at bay while parents struggle in jobs that fail to pay living wages While many in the Tar Heel State enjoy unparalleled prosperity those born into poverty have lower odds than ever of climbing the ladder of economic upward mobility Today more than 15 million North Carolinians live in poverty More than one in five are children Behind these sobering statistics are the faces of our fellow citizens This book tells their stories Since 2012 Gene R Nichol has traveled the length of North Carolina conducting hundreds of interviews with poor people and those working to alleviate the worst of their circumstances Here their voices challenge all of us to see what is too often invisible to look past partisan divides and preconceived notions and to seek change Only with a full commitment as a society Nichol argues will we succeed in truly ending poverty which he calls our greatest challenge
