

ETHNOGRAPHY

Ethnography is a research method that involves embedding yourself in the environment of a group or community and recording what you observe.

DEFINITION

Longitudinal studies have the advantage of capturing data over an extended period, allowing researchers to observe and analyze changes and trends over time. They provide valuable insights into the development of individuals and the effects of various factors on their lives. However, they can be resource-intensive, time-consuming, and subject to attrition.

EXAMPLES

- **Learning to Labour:** Learning to Labour follows working-class 'lads' in the British Midlands as they participate in counter-cultural and 'anti-social' behaviors.
- **Coming of Age in Samoa:** Margaret Mead's groundbreaking ethnography explored the lives of Samoan teen girls, comparing them to Western lifestyles, challenging ideas about gender expectations.
