web this course covers predictive modeling using sas stat software with emphasis on the logistic procedure this course also discusses selecting variables and interactions recoding categorical variables based on the smooth weight of evidence assessing models treating missing values and using efficiency techniques for massive data sets

*predictive analytics what it is and why it matters sas* - Apr 11 2023

web predictive analytics is the use of data statistical algorithms and machine learning techniques to identify the likelihood of future outcomes based on historical data the goal is to go beyond knowing what has happened to providing a best assessment

of what will happen in the future history
