The Style of Hawthorne's Gaze John Dolis, 2014-07-14 An exploration of Nathaniel Hawthorne s narrative technique and unique vision of the world The Style of Hawthorne s Gaze is an unusual and insightful work that employs a combination of critical strategies drawn from art history philosophy psychoanalysis and contemporary aesthetic and literary theory to explore Nathaniel Hawthorne s narrative technique and his unique vision of the world Dolis studies Hawthorne s anti technological and essentially Romantic view of the external world and examines the recurring phenomena of lighting motion aspectivity fragmentation and imagination as they relate to his descriptive techniques Dolis sets the world of Hawthorne s work over and against the aesthetic and philosophical development of the world understood as a view from its inception in the camera obscura and perspective in general to its 19th century articulation in photography In light of this general technology of the image and drawing upon a wide range of contemporary critical theories Dolis begins his study of Hawthorne at the level of description where the world of the work first arises in the reader s consciousness Dolis shows how the work of Heidegger Merleau Ponty Freud Lacan and Derrida can provide fresh insights into the sophisticated style of Hawthorne s perception of and system for representing reality *Summaries of the Sermons and Discourses of Sherlock and Jeremy Taylor* Thomas Smart Hughes, Thomas Sherlock, Jeremy Taylor, 1837 **Thrice-Greatest Hermes** G. Christianity Stobaeus collected fragments of them The Humanists knew and valued them They were studied in the sixteenth and seventeenth centuries and in modern times have again been diligently examined by many scholars G R S Mead has issued a translation of the whole body of extant literature with extended prolegomena commentary etc There is a wide difference of opinion as to the date at which this literature was produced Mead believes that some of the extant portions of it are at least as early as the earliest Christian writings while von Christ assigns them to the third Christian century and thinks that they show the influence of neo Platonism To affirm that they influenced New Testament usage would be hazardous but they perhaps throw some light on the direction in which thought was moving in New Testament times
