Global Cities Reader:

The Global Cities Reader Neil Brenner, Roger Keil, 2006 This book contains fifty selections from classic writings by authors such as John Friedmann Michael Peter Smith Saskia Sassen Peter Taylor Manuel Castells and Anthony King as well as major contributions by other international scholars of global city formation

The Globalizing Cities Reader Xuefei Ren, Roger Keil, 2017-10-12 The newly revised Globalizing Cities Reader reflects how the geographies of theory have recently shifted away from the western vantage points from which much of the classic work in this field was developed The expanded volume continues to make available many of the original and foundational works that underpin the research field while expanding coverage to familiarize students with new theoretical and epistemological positions as well as emerging research foci and horizons It contains 38 new chapters including key writings on globalizing cities from leading thinkers such as John Friedmann Michael Peter Smith Saskia Sassen Peter Taylor Manuel Castells Anthony King Jennifer Robinson Ananya Roy and Fulong Wu The new Reader reflects the fact that world and global city studies have evolved in exciting and wide ranging ways and the very notion of a distinct global class of cities has recently been called into question The sections examine the foundations of the field and processes of urban restructuring and global city formation A large number of new entries focus on the emerging urban worlds of Asia Latin America and Africa including Beijing Bogota Cairo Cape Town Delhi Istanbul Medellin Mumbai Phnom Penh Rio de Janeiro Sao Paulo and Shanghai The book also presents cases off the conventional map of global cities research such as smaller cities and less known urban regions that are undergoing processes of globalization The book is a key resource for students and scholars alike who seek an accessible compendium of the intellectual foundations of global urban studies as well as an overview of the emergent patterns of early 21st century urbanization and associated sociopolitical contestation around the world
