Commentary on Paul's Epistle to the Romans William S. Plumer, 2016-09-02 Excerpt from Commentary on Paul's Epistle to the Romans With an Introduction on the Life Times Writings and Character of Paul Both of Paul's parents were of the seed of Jacob 80 that phrase a Hebrew of the Hebrews clearly teaches Like king Saul our apostle was of the tribe of Benjamin He was a native of Tarsus in Cilicia no mean city To all its freemen Augustus had given the freedom of Roman citizens because of their fidelity to his interests The time of Paul's birth is uncertain From something said by Chrysostom in one of his homilies some have inferred that Paul was born two years before our Lord But this is pretty certainly a mistake for he was still a young man at Stephen's martyrdom which occurred certainly as late as A D 33 And a man from thirty five to thirty seven years old would not be so spoken of It is therefore highly probable that Paul was considerably younger than Jesus of Nazareth About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

Pelagius's Commentary on St Paul's Epistle to the Romans Pelagius, Theodore De Bruyn, 1993 The Pelagian controversy whether man is saved through predestination or by his own free will has proved one of the most enduring and fiercely contended issues of the Christian church and has secured Pelagius a lasting place within its history Few of Pelagius writings however have been preserved and until recently none was available in English translation This volume presents Pelagius commentary on Paul's Letter to the Romans for the first time in English The commentary one of thirteen on the Pauline Epistles dates from the time when Pelagius was active in Rome before he became embroiled in controversy But already there are adumbrations of the later debate and signs of different currents of thought in Italy and beyond In his introduction Theodore de Bruyn discusses the context in which Pelagius wrote the commentary and the issues

which shaped his interpretation of Romans He also takes up questions about the edition of the commentary The translation is annotated with references to Pelagius contemporaries A new recension of Pelagius text of Romans is presented in an appendix
