## Guam Past Present:

Strategic Guam Robert A. Cristomo, Army War College (U.S.), 2013 Guam serves as the linchpin in the United States strategy to assert influence in the Pacific. Indeed the island's regional geographic importance continues to grow as Washington increases its emphasis and military might in light of perceived China aspirations and other regional concerns such as North Korea. However Washington's Asia Pacific policy rests on the assumption that the United States will always have Guam as a staging base. This assumption may be flawed. The United States Asia Pacific regional policy has the potential of being derailed by the island's nascent desire to pursue its right of self-determination. Guam's pursuit for independence from Washington's rule can be traced to several key issues. Given the island's importance to the U.S.'s strategy in Asia an examination of the key issues of dissension to keep Guam as a strategic U.S. sovereign is warranted. This paper addresses these issues and the implications of Guam's pursuit of self-determination within the U.S. national strategy for the region. It foreshadows the consequences of independence on U.S. strategy. It also offers recommendations to Guam's pursuit for self-determination so that the island remains a beacon of U.S. strategic strength in Asia. Liberation 1958 Guam. Liberation Day Committee. Rebalancing U.S. Forces Carnes Lord, 2014-05-15 American seapower requires a robust constellation of bases to support global power projection. Given the rise of China and the emergence of the Asia Pacific as the center of global economic

growth and strategic contention nowhere is American basing access more important than in this region Yet manifold political and military challenges stemming not least of which from rapidly improving Chinese long range precision strike capabilities complicate the future of American access and security here This book addresses what will be needed to maintain the fundamentals of U S seapower and force projection in the Asia Pacific and where the key trend lines are headed in that regard This book demonstrates that U S Asia Pacific basing and access is increasingly vital yet increasingly vulnerable It demands far more attention than the limited coverage it has received to date and cannot be taken for granted More must be done to preserve capabilities and access upon which American and allied security and prosperity depend
