warfare of today It is either resorted to by the weak because circumstances prevent them from deploying regular armed
forces or adopted by the strong to enable them to achieve political aims without the terrifying risks imposed by nuclear
weapons of all out warfare This is the first book to cover the whole development of modern guerrilla warfare from its

inception in Spain in 1808 to the time of writing Lt Col Arthur Campbell who was himself engaged against guerrillas in three widely different campaigns takes the major guerrilla wars of the nineteenth and twentieth centuries and treats them one by one His separate accounts are linked by a series of narratives which keep the reader abreast with the various developments of this form of fighting Many of the stories are told in the first person as if by a participant others are given more objective treatment but each is a gripping account of courage and cruelty of barbarity and bravery and of extreme endeavor By his treatment Arthur Campbell has covered every aspect of guerrilla fighting from the theories and practices of such eminent authorities as Marx and Mao to the individual actions and emotions of men and women engaged on the battlefields either as guerrillas or counter guerrillas The effect on participants of both national and international politics is clearly shown as is the vital importance of the approach to people s hearts and minds In his closing chapters the author draws conclusions from the past These chapters in effect summarize the essential ingredients of success in both guerrilla and counter guerrilla warfare
