## **Forgetting Places:**

**The Forgetting Place** John Burley, 2015-02-10 A female psychiatrist at a state mental hospital finds herself at the center of a shadowy conspiracy in this dark and twisting tale of psychological suspense from the author of *The Absence of Mercy* Menaker State Hospital is a curse a refuge a prison a necessity a nightmare a salvation When Dr Lise Shields arrived at the correctional psychiatric facility five years ago she was warned that many of its patients committed by Maryland's judicial system for perpetrating heinous crimes would never leave But what happens when a place like Menaker is corrupted when it becomes a tool to silence the innocent conceal an injustice contain a secret Why is it that the newest patient does not seem to belong there that the hospital administrator has fallen silent and that Lise is being watched by two men with seemingly lethal intent The answers are closer than she realizes and could cost her everything she holds dear In this chilling follow up to *The Absence of Mercy* author John Burley a master at medical and psychological detail showcases the many ways in which the dangers of the outside world pale in comparison to the horrors of the human mind

**Globalisation and the Politics of Forgetting** Yong-Sook Lee, Brenda S.A. Yeoh, 2018-10-24 In both academic scholarship and the popular imagination the globality of modern society has been represented by global cities as the corporate and financial epicentres for capital accumulation cosmopolitan cultures and innovative change This has created an image of the globalised world as empty beyond cities which make it into the global league as paradigmatic celebrity cities As a counterpoint this book give interpretive weight elsewhere in other places cities and regions drawing on a range of examples from both the developed and developing worlds This book was previously published as a special issue of the journal *Urban Studies*

**Violence in Place, Cultural and Environmental Wounding** Amanda Kearney, 2016-11-25 Human life is intimately woven into place Through nations and homelands monuments and sacred sites it becomes the anchorage point for ethnic cultural and national identities Yet it is also place that becomes the battlefield war zone mass grave desecrated site and destroyed landscape in the midst or aftermath of cultural wounding Much attention has been given to the impact of trauma and violence on human lives across generations but what of the spaces in which it occurs How does culturally prescribed violence impact upon place And how do the non human species with whom we coexist also suffer through episodes of conflict and violence By identifying violence in place as a crisis of our times and by encouraging both the witnessing and the diagnosing of harm this book reveals the greater effects of cultural wounding It problematises the habit of separating human life out from the ecologies in which it is held If people and place are bound through kinship whether through necessity and survival or choice and abiding love then wounding is co terminus The harms done to one will impact upon the other Case studies from Australia North and South America Europe and the Pacific illustrate the impact of violence in place while supporting a campaign for methodologies that reveal the fullness of the relational bond between people and place The book will appeal to students and practitioners alike with interests in cultural and human geography anthropology environmental humanities and moral ecology

,1977 **Place Marketing and Temporality** Gary Warnaby,2024-06-26 Much city marketing and branding activity is future oriented aimed at achieving a forward looking vision for places The aim of this activity is to attract visitors residents and or inward investment and focus on communicating attractive place attributes to create a differentiated spatial product that will appeal to particular target audiences In seeking to achieve this place marketing campaigns have been criticized for emphasizing generic attributes such as accessibility infrastructure and a skilled workforce which can serve to homogenize places which in reality are very different However a city s distinctive character is a consequence of its history and development over time and this book analyses the role of these temporal dimensions in place marketing and branding The book analyses how the past both material i e the historic built environment and intangible i e routines practices and the character of the populace is appropriated in order to sell the city into the future It acknowledges the inherent selectivity involved and discusses the factors influencing what is remembered from the past and equally importantly what is forgotten Adopting a range of theoretical approaches to understanding temporality in this context the book will appeal to advanced students academic researchers and reflexive place branding practitioners by introducing a temporal paradox incorporating both fixity the material and immaterial elements of the city s past and fluidity relating to the creation of the place product as a dynamic assemblage of individual elements and attributes aimed at particular target audiences
