Star Patterns

Findout Constellations

What:
There is a lot of stars that make up constellations. Learning to find constellations is an important skill for astronomers and stargazers. The biggest star in the constellation is called the **alpha** star.

How to:
Use a star chart or a star map to find the constellation of interest. Constellations are usually named after animals or objects. The star chart or map will show the constellation's location in the sky.

What:
The Orion constellation is one of the most prominent constellations in the night sky. It is located in the winter months and is visible from the Northern Hemisphere.

How to:
Use a star chart or a star map to find the Orion constellation. The star chart or map will show the constellation's location in the sky.
