A note from the publisher

In order to provide our students with high quality resources for their science and science qualifications, we have brought a team of science teachers working together to develop a revision guide for the specification of the combined science (9–1) qualification which is aimed to help students to understand and appreciate the importance of the development of subject skills, including understanding the scientific process.

Our authors have all worked and practised as classroom teachers or scientists and therefore are able to provide a revision guide that is both practical and relevant to the learning objectives of a science lesson.

We are confident that this revision guide will provide the support for the specification and the progress.
