Current Network Infrastructure

- This section should include a detailed description of the current network infrastructure, including an inventory of hardware, software, and network components.
Example:
At present, our network consists of three routers, switches, and firewalls, along with Windows Server 2019 and VMware virtualization. We have a combination of wired and wireless connections, with multiple VLANs for aggregate traffic.
My advice on this section:
Provide as much detail as possible about the existing network infrastructure, including any pain points or limitations that need to be addressed. This will help the reader understand the specific challenges that the new design will need to overcome.

Implementation Plan

- This section should provide a detailed plan for implementing the proposed network design, including timelines, milestones, and resource requirements.
Example:
The implementation plan will be divided into three phases: hardware installation, software upgrade, and network migration. Each phase will have specific timelines and milestones, and will require the coordination of IT staff, vendors, and end users.
My advice on this section:
Be as specific and detailed as possible when outlining the implementation plan. This will help stakeholders understand the scope of the project and the resources required, and will also serve as a roadmap for the project team.

Introduction

- This section should provide a brief overview of the network design project, including the scope, objectives, and desired outcomes.
Example:
Our company, XYZ Corp, is in need of a complete network redesign to improve performance, security, and scalability. The goal of this project is to create a modern and efficient network infrastructure that can support our growing business needs.
My advice on this section:
Be sure to clearly outline the specific reasons and benefits for the network design project. This will help stakeholders understand the importance and necessity of the proposed changes.

Proposed Network Design

- This section should outline the proposed changes and improvements to the network infrastructure, including any new hardware, software, and network topology.
Example:
The proposed network design includes the implementation of a new Core Switch, Firewall, patches, and wireless access points to provide a unified and centrally managed network. We will also be upgrading to Windows Server 2022 and implementing a hybrid cloud solution with Microsoft Azure.
My advice on this section:
Clearly articulate the specific changes and upgrades that are being proposed, including the rationale behind each decision. This will demonstrate to stakeholders that careful thought and planning has gone into the proposed design.

Cost Estimate

- This section should provide a breakdown of the costs associated with the proposed network design, including hardware, software, training, and labor.
Example:
The estimated cost for the network design project is \$250,000, which includes the purchase of new hardware and software, as well as implementation services from our vendor partners.
My advice on this section:
Provide a detailed breakdown of the costs, including justification for each expense. This will help stakeholders understand the financial implications of the project and make informed decisions about the proposed design.
