Evolution In Color

Chao Zhang

Evolution In Color:

Evolution in Color Frans Gerritsen,1988 In this book the author of *Color Optical Appearance Physical Phenomenon and Artistic Means of Expression* which has appeared in six languages gives as overview of the theory of color from antiquity to the present His study clarified by numerous B W and color illustrations promotes the understanding of many concepts of color in this realm The book offers instructions for the construction of one s own color perception model which allows all color values within a color system to be viewed Evolution in Color is an indispensable study for all who work with color including artists glazers architects decorators designers ceramic and textile artists and the student of color theory

A History of Color Robert A. Crone,2012-12-06 This is the first comprehensive text on the history of color theories since Halbertsma s book of 1947 Color is discussed in close connection with the evolution of ideas of light and vision The book has chapters on the ancient Greek ideas of vision and color on the contributions of Arabic science on the Scientific Revolution from Kepler to Newton on the early history of the three color hypothesis on the trichromatic theory and defective color vision and on Goethe s Schopenhauer s and Hering s theories New understanding of the structure and functions of the retina and the brain finally results in the modern science of color vision A History of Color has been written for ophthalmologists optometrists and others who are interested in visual science and its history The book requires no specialized knowledge
