Computer Integrated Manufacturing Steven A. Melnyk, Ram Narasimhan, 1992 Many manufacturing managers feel unsure about the nature of CIM Steven Melnyk and Ram Narasimhan present it as a strategic rather than a technical function and offer a management based approach for understanding and implementing it in your operations Unlike other CIM books Computer Integrated Manufacturing is written from the manager's point of view rather than that of a technical expert In easy to understand terms it shows you how to develop a strong link between strategy and CIM structure turn CIM into a competitive advantage over business rivals deal with glitches that arise in the CIM process Computer Integrated Manufacturing Thomas Bernold, Walter Guttropf, 1988 Computer Integrated Manufacturing CIM implies a restructuring of manufacturing industry to form an information centered economy Many small enterprises often work as suppliers to large manufacturers which are in the process of introducing CIM In the short or long term the supplier will be forced to introduce CIM since construction specifications test procedures manufacturing programmes etc will be part of the contract and will be transmitted electronically Only those who can adapt flexibly to change will survive The papers from this conference illustrate the state of the technology and allow for comparison between US and European developments The aim is not to further isolate information technology and communication at the expert level but rather to deepen the understanding of CIM concepts in production enterprises of all types *Methods and Tools for Computer Integrated Manufacturing* Ulrich Rembold, R. Dillmann, 1984 Introduction to Computer-integrated Manufacturing Frank Greenwood, 1989

Computer-integrated Manufacturing James A. Rehg, Henry W. Kraebber, 2001 Written for the technologist or engineer who wants a clear picture of the basic concepts and real world application of computer integrated manufacturing this book's features include systems approach demonstration of how CIM fits into current manufacturing systems and how the technology is used to solve actual industrial problems interdisciplinary coverage which includes engineering business and production considerations for decision making applications the CIM model used here is consistent with the SME new manufacturing enterprise wheel developed by the Society of Manufacturing Engineers and simulation software the problem sets refer to simulation software so that readers can see a manufacturing operation under realistic production constraints
