[Family Medicine](#) A.K. David, T.A. Jr. Johnson, D.M. Phillips, J.E. Scherger, Robert B. Taylor, 2013-06-29 Much is new in Family Medicine since the last edition of our textbook For example not only is the therapy of human immunodeficiency virus HIV disease and the acquired immunodeficiency syndrome AIDS much different than a few years ago the epidemiology of the disease has also changed and more than half of the family physicians in a rural state such as Oregon have already managed patients with HIV disease or AIDS 1 There are new immunization recommendations for children and new antibiotics for the treatment of bacterial infections Computers are bringing medical informatics and on line consultation into office practice Medicare physician payment reform is underway and the reality of rationing medical care has been recognized There has been a recent increase in student interest in a family practice career 2 coincidental with a Council on Graduate Medical Education COGME recommendation that at least 50 percent of all residency graduates 3 should enter practice as generalists Also there is increasing awareness of the need for a 4 Center for Family Practice and Primary Care at the National Institutes of Health This all new fourth edition is intended to present the scientific and practical basis of family medicine with special attention to what's new in family medicine The emphasis is on how the physician provides continuing and comprehensive care for persons of all ages with clinical content selected from the perspective of family physicians The format of the book like the practice of family medicine continues to change

Family Medicine John L. Buckingham, E.P. Donatelle, Thomas A. Jr. Johnson, Joseph E. Scherger, Robert B. Taylor, 2013-11-21 New material in a new format is contained in this third edition of Family Medicine The comprehensive text nevertheless remains true to the goal of previous editions in offering a scientific approach to health and illness within the context of the family Using up to date clinical material the book demonstrates how the family physician may provide comprehensive health care to persons of all ages The first part of Family Medicine discusses such topics as the conceptual basis of family as discipline and specialty

problem differentiation family centered health care longitudinal care clinical reasoning and resource management The second part explores both problems related to organs and systems and problems related to the person family and community including pregnancy care of infants children adolescents and the elderly behavioral and psychiatric problems emergency and critical care sports medicine alcoholism and substance misuse environmental health and neoplastic and infectious diseases Family Medicine with its greatly expanded in depth coverage of the most commonly encountered clinical core problems and procedures in family medicine continues to be a textbook written and edited by family physicians for family physicians
