Fontane Und Thackeray:

Fontane und Thackeray Wolfgang Eberhardt, 1975 **Literary Translation, Reception, and Transfer** Norbert Bachleitner, 2020-09-21 The three concepts mentioned in the title of this volume imply the contact between two or more literary phenomena they are based on similarities that are related to a form of travelling and imitation or adaptation of entire texts genres forms or contents Transfer comprises all sorts of travelling with translation as a major instrument of transferring literature across linguistic and cultural barriers Transfer aims at the process of communication starting with the source product and its cultural context and then highlighting the mediation by certain agents and institutions to end up with inclusion in the target culture Reception lays its focus on the receiving culture especially on criticism reading and interpretation Translation therefore forms a major factor in reception with the general aim of reception studies being to reveal the wide spectrum of interpretations each text offers Moreover translations are the prime instrument in the distribution of literature across linguistic and cultural borders thus they pave the way for gaining prestige in the world of literature The thirty eight papers included in this volume and dedicated to research in this area were previously read at the ICLA conference 2016 in Vienna They are ample proof that the field remains at the center of interest in Comparative Literature Market Strategies and German Literature in the Long Nineteenth Century Vance Byrd, Ervin Malakaj, 2020-01-20 Building upon recent German Studies research addressing the industrialization of printing the expansion of publication venues new publication formats and readership Market Strategies maps a networked literary field in which the production promotion and reception of literature from the Enlightenment to World War II emerges as a collaborative enterprise driven by the interests of actors and institutions These essays demonstrate how a network of authors editors and publishers devised mutually beneficial and at times conflicting strategies for achieving success on the rapidly evolving nineteenth century German literary market In particular the contributors consider how these actors shaped a nineteenth century literary market which included the Jewish press highbrow and lowbrow genres and modernist publications They explore the tensions felt as markets expanded and restrictions were imposed which yielded resilient new publication strategies fostered criticism and led to formal innovations The volume thus serves as major contribution to interdisciplinary research in nineteenth century German literary media and cultural studies *The Changing Image of Theodor Fontane* Helen Chambers, 1997 Wide ranging survey of the criticism devoted to Theodor Fontane with particular emphasis on more recent theoretical trends This study of the literary scholarship on Fontane s narrative works is the first to present a systematic review of the ever growing body of criticism on Germany s major realist novelist Significant developments in Fontane criticism are traced in historical context from their beginnings in contemporary commentary to the present day The author places special emphasis on scholarship since 1980 analysing the influence of new literary critical trends in this period she also considers the effect upon traditional literary criticism of feminism psychoanalysis and comparatist approaches and

the fresh developments in reception history translation and media studies **Urbanization and Crime** Eric A. Johnson,2002-07-18 This 1995 book contributes to both modern German history and to the sociological understanding of crime in modern industrial and urban societies Its central argument is that cities in themselves do not cause crime It focuses on the problems of crime and criminal justice during Germany s period of most rapid urban and industrial growth a period when Germany also rose to world power status From 1871 to 1914 German cities despite massive growth socialist agitation and non ethnic German immigration were not particularly infested with crime Yet the conservative political and religious elites constantly railed against the immoral nature of the city and the German governmental authorities police and court officials often overreacted against city populations In so doing they helped to set Germany on a dangerous authoritarian course *Germany's Two Unifications* R. Speirs,J. Breuilly,2004-12-06 Germany s unique historical experience of undergoing national unification twice in a little over a century makes it a fascinating object of study In this volume the processes of unification are analysed from the point of view of historians political scientists and literary historians Because each event had quite different historical pre conditions the first having been long anticipated and pursued whereas the second took virtually all participants by surprise the processes of adjustment to it have differed in many ways Yet in each case the idea of national unity has held sway powerfully as a norm guiding the responses of those involved *Monatshefte* ,1972 The Novel in England and Germany H. R. Klieneberger,1981 **Encyclopedia of German Literature** Matthias Konzett,2015-05-11 Designed to provide English readers of German literature the opportunity to familiarize themselves with both the established canon and newly emerging literatures that reflect the concerns of women and ethnic minorities the Encyclopedia of German Literature includes more than 500 entries on writers individual work and topics essential to an understanding of this rich literary tradition Drawing on the expertise of an international group of experts the essays in the encyclopedia reflect developments of the latest scholarship in German literature culture and history and society In addition to the essays author entries include biographies and works lists and works entries provide information about first editions selected critical editions and English language translations All entries conclude with a list of further readings
