

WHAT IS GEOMETRY?

$$v = abc$$

Geometry is a branch of mathematics that studies the shapes, sizes, positions, and properties of space.

It uses points, lines, planes, angles, and figures to analyze and describe objects and patterns in the real world.

Geometry is essential in solving spatial problems and is widely applied in various areas such as architecture, engineering, design, physics, astronomy, and more.

Additionally, it plays a fundamental role in understanding the nature and structure of the universe, as well as in the development of advanced technologies and the creation of artistic works.
