Hay, 1973 *The Maya and Their Neighbors* Clarence Hay, Ralph Linton, Samuel Lothrop, Harry Shapiro, 1979-01-01 **The Maya and Their Neighbors** Clarence L. Hay, 1977 **Essays in Pre-Columbian Art and Archaeology** Samuel Kirkland Lothrop, 1961 No detailed description available for *Essays in Pre-Columbian Art and Archaeology* The Past and Present Maya John M. Weeks, 2001 *Mesoamerican Religions and Archaeology* Aleksandar Bošković, 2017-01-26 The main goal of this book is to produce a methodologically sound and ethically valid interdisciplinary introduction into the exciting world of ancient Mesoamerica **Civilization in the Ancient Americas** Gordon Randolph Willey, Richard M. Leventhal, Alan L. Kolata, 1983 Ride of the Second Horseman Robert L. O'Connell, 1997 In times of underpopulation slaves were taken to provide labor O'Connell explores the histories of the civilizations of ancient Sumeria Egypt Assyria China and the New World showing how war came to each and how it adapted to varying circumstances On the other hand societies based on trade employed war much more selectively and pragmatically Thus Minoan Crete long protected from marauding pastoralists developed a wealthy mercantile society marked by unmilitaristic attitudes equality between men and women and a relative absence of class distinctions In Assyria by contrast war came to be an end in itself in a culture dominated by male warriors Despite the violence in the world today O'Connell finds reason for hope The industrial revolution broke the old patterns of subsistence war no longer serves the demographic purpose it once did *Essays of an Americanist* Daniel G. Brinton, 2022-09-04 DigiCat Publishing presents to you this special edition of *Essays of an Americanist* I Ethnologic and Arch ologic II Mythology and Folk Lore III Graphic Systems and Literature IV Linguistic by Daniel G Brinton DigiCat Publishing considers every written word to be a legacy of humankind Every DigiCat book has been carefully reproduced for republishing in a new modern format The books are available in print as well as ebooks DigiCat hopes you will treat this work with the acknowledgment and passion it deserves as a classic of world literature *Maya Archaeology and Ethnohistory* Norman Hammond, Gordon R. Willey, 2014-04-15 Embracing a wide range of research this book offers various views on the intellectual history of Maya archaeology and ethnohistory and the processes operating in the rise and fall of Maya civilization The fourteen studies were selected from those presented at the Second Cambridge Symposium on Recent Research in Mesoamerican Archaeology and are presented in three major sections The first of these deals with the application of theory both anthropological and historical to the great civilization of the Classic Maya which flourished in the Yucatan Guatemala and Belize during the first millennium A D The structural remains of the Classic Period have impressed travelers and archaeologists for over a century and aspects of the development and decline of this strange and brilliant tropical forest culture are examined here in the light of archaeological research The second section presents the results of field research ranging from the Highlands of Mexico east to Honduras and north into the Lowland heart of Maya civilization and iconographic study of excavated material The

third section covers the ethnohistoric approach to archaeology the conjunction of material and documentary evidence Early European documents are used to illuminate historic Maya culture This section includes transcriptions of previously unpublished archival material Although not formally linked beyond their common field of inquiry the essays here offer a conspectus of late twentieth century Maya research and a series of case histories of the work of some of the leading scholars in the field

Substance of the Ancient Maya Andrew K. Scherer, Thomas G. Garrison, 2024-12-01 Substance of the Ancient Maya Kingdoms and Communities Objects and Beings collects twelve essays by top scholars that highlight what is new in research pertaining to the ancient Maya Subjects range from updated political histories of major kingdoms in the southern Maya Lowlands to explorations of the nature of Maya writing and materiality These essays were inspired by the scholarship of Stephen Houston and celebrate his transdisciplinary commitment to research in anthropological archaeology epigraphy and art history The contributions in this volume are organized into two sections that respectively reflect different scales from which to approach the substance of the ancient Maya from hand held objects to entire kingdoms This dichotomy reflects the breadth of questions central to current research on the Maya It also illustrates how certain themes such as the relationship between the living and the realm of the supernatural are fundamental to both thinking by and about the Maya at all scales A diversity of methods is not only embodied by this assemblage of essays but is also spread equally across the two sections of the book illustrating that archaeologists epigraphers geographers and art historians can equally contribute to the substance of kingdoms and communities as they can to objects and beings Collectively these contributions show how the objects and beings that composed the Classic Maya world were both literal and sacred substances that mediated relations not only among living people but with gods and ancestors A final chapter by Stephen Houston reflects on unfinished projects of the ancient Maya as a metaphor for all of the work yet to be done to move forward in our studies of the past
