First Symphony:

Gustav Mahler Donald Mitchell, 2005 The author's second book on the life and work of Gustav Mahler focuses principally on Mahler's first settings of Wunderhorn texts volumes I and II of the *Lieder und Gesänge* his first song cycle the *Lieder eines fahrenden Gesellen* and the later orchestral settings of Wunderhorn poems The central section of the book explores the extraordinary and often eccentric chronology of the First Second and Third Symphonies composition an often minute exploration which reveals the interpenetration of song and symphony in this period of Mahler's art emphasizes the significance for these works of imagery drawn from the Wunderhorn anthology and calls attention to the ambiguous position occupied by much of Mahler's music at this time suspended as it was between the rival claims and forms of symphony and symphonic poem The final section of the book not only looks at the Fourth Symphony as the final perhaps most perfect flowering of Mahler's Wunderhorn symphonies but also investigates such fascinating topics as the relationship between Mahler and Berlioz and the influence of Bach on Mahler's later masterpieces This new edition of the book offers an entirely new preface in which Mitchell gives a unique account of the influence of politics nationalism and fascism on the reception and rejection of Mahler's music after the composer's death until the Mahler Renaissance of the 1950s and 1960s It also includes extensive corrigenda and amplifying addenda making it clear that the Wunderhorn influence persisted beyond the end of the period during which the Wunderhorn anthology was a constant source of inspiration It is completed by an international bibliography which documents chronologically the reception and study of his music both in the past and the prodigiously different circumstances of the present

Orchestrating the Nation Douglas W. Shadle, 2016 During the nineteenth century nearly one hundred symphonies were written by over fifty composers living in the United States With few exceptions this repertoire is virtually forgotten today In *Orchestrating the Nation: The Nineteenth Century American Symphonic Enterprise* author Douglas W. Shadle explores the stunning stylistic diversity of this substantial repertoire and uncovers why it failed to enter the musical mainstream Throughout the century Americans longed for a distinct national musical identity As the most prestigious of all instrumental genres the symphony proved to be a potent vehicle in this project as composers found inspiration for their works in a dazzling array of subjects including Niagara Falls Hiawatha and Western pioneers With a wealth of musical sources at his disposal including never before examined manuscripts Shadle reveals how each component of the symphonic enterprise from its composition to its performance to its immediate and continued reception by listeners and critics contributed to competing visions of American identity Employing an innovative transnational historical framework Shadle's narrative covers three continents and shows how the music of major European figures such as Beethoven Schumann Wagner

Liszt Brahms and Dvorak exerted significant influence over dialogues about the future of American musical culture Shadle demonstrates that the perceived authority of these figures allowed snobby conductors capricious critics and even orchestral musicians themselves to thwart the efforts of American symphonists despite widespread public support of their music Consequently these works never entered the performing canons of American orchestras An engagingly written account of a largely unknown repertoire *Orchestrating the Nation* shows how artistic and ideological debates from the nineteenth century continue to shape the culture of American orchestral music today *Program* New York Philharmonic, 1930 *Percussion Instruments and Their History* James Blades, 1992 **Musical Standard**, 1879 The Musical Times, 1908 *American Organ Monthly*, 1920 *American Organ Quarterly*, 1921 *The Review of Reviews* William Thomas Stead, 1929 *Music*, 1900 Musical Magazine and Musical Courier, 1900 Brahms John Lawrence Erb, 1913 *A Concise Chronological History of the Chief Musicians and Musical Events, from A.D. 1380 to 1885* Claude Egerton Lowe, 1885 Missouri Historical Review Francis Asbury Sampson, Floyd Calvin Shoemaker, 1923 *The British Quarterly Review* Henry Allon, 1872 The Pageant of America: The American spirit in art, by F.J.
