contextual issues during each phase of adolescence and adulthood Following these major adolescence and adulthood sections selected issues that may pose identity challenges for some are presented New to the Second Edition A thorough updating of key theories researches and demographic information on the course and contents of identity development from adolescence through adulthood An international focus in the selection of research used to examine key issues A discussion of measurement techniques used within various theoretical orientations to investigate issues of identity A contemporary critical analysis of current identity research within an Eriksonian framework Ethnic Identity Development and the Influence of Multicultural Children's Literature Jennifer Serena Lee,1999 Multicultural Counseling Jerry Trusty,2002 Multicultural Counseling Context Theory Practice Competence Identity Development of Diverse Populations: Implications for Teaching and Administration in Higher Education Vasti Torres,Mary F. **We are a People** Paul R. Spickard, W. Jeffrey Burroughs, 2000 As the twentieth century closes ethnicity stands out as a powerful force for binding people together in a sense of shared origins and worldview But this emphasis on a people's uniqueness can also develop into a distorted rationale for insularity inter ethnic animosity or as we have seen in this century armed conflict Ethnic identity clearly holds very real consequences for individuals and peoples yet there is not much agreement on what exactly it is or how it is formed The growing recognition that ethnicity is not fixed and inherent but elastic and constructed fuels the essays in this collection Regarding identity as a dynamic on going formative and transformative process We Are a People considers narrative the creation and maintenance of a common story as the keystone in building a sense of peoplehood Myths of origin triumph over adversity migration and so forth chart a group's history while continual additions to the larger narrative stress moving into the future as a people Still there is more to our stories as individuals and groups Most of us are aware that we take on different roles and project different aspects of ourselves depending on the situation Some individuals who have inherited multiple group affiliations from their families view themselves not as this or that but all at once So too with ethnic groups The so called hyphenated Americans are not the only people in the world to recognize or embrace their plurality This relatively recent acknowledgment of multiplicity has potentially wide implications destabilizing the limited and limiting categories inscribed in for example public policy and discourse on race relations We Are a People is a path breaking volume boldly illustrating how ethnic identity works in the real world Author note Paul Spickard is Professor and Chair of Asian American Studies at UC Santa Barbara and is author of Mixed Blood W Jeffrey Burroughs is Professor of Psychology at Brigham Young University Hawaii
