Cosmic Evolution John Elof Boodin,1925 **Speculations Concerning the Ether and Its Functions** John Benjamin Penniston,1928 **Radionics Interface With The Ether-Fields** David V Tansley,2011-08-31 This book explores the interface that exists between the human energy field and the Universal Field of energy in which we live It shows how these fields can be utilised for distant diagnosis and treatment It also illustrates that the surest and most effective way to ameliorate a defect in any biological system is to modulate the interacting and interdependent energy fields by way of the chakras The same energy fields can be used to take photographs of distant objects particularly the energy structures of living human tissues and pathological states existing in them The vibratory patterns and potencies of homoeopathic remedies can also be drawn from the ether fields and impregnated into neutral substances such as water or alcohol solutions which have a capacity for memory Radionics is a healing art that links the physical world with the unseen worlds lying beyond the physical senses Diagnostically it probes to the levels of causation of disease therapeutically it is gentle and non invasive *From the Mysteries* Hermann Beckh,2020-06-03 In the early part of the last century Professor Hermann Beckh began a search to discover the truth about the Mystery wisdom of antiquity As a recognized authority on Buddhist texts he knew that complete knowledge of such Mysteries was not to be found within the limitations of waking consciousness sense perception and logic Beckh was already aware that Gautama Buddha had indicated the stages of higher knowledge Furthermore his studies of Rudolf Steiner s anthroposophical teachings revealed that such knowledge could be experienced directly given disciplined meditation Clairvoyant cognition included the conscious penetration of sleep consciousness the dream state and an experience of pre natal consciousness Both the Mysteries and Rudolf Steiner s major books he concluded were founded on the same perceptions Beckh a worldwide expert on Tibetan Sanskrit Pali and Avestan texts quickly became disenchanted with Madame Blavatsky s Theosophy as it displayed little precise academic knowledge of primary records At the same time university departments showed scant trace of understanding the texts they analysed through philology and sociology Thus based on comprehensive studies and personal experience he resolved to present his own perceptions and vision to the public The results are to be found in this invaluable book bringing together for the first time in English three groundbreaking publications Our Origin in the Light Genesis 1 9 1924 Zarathustra 1927 and From the World of the Mysteries 1927 as well as five of Beckh s articles from contemporary periodicals **Finding Harmony** Matthew Del Nevo,2018-01-23 This is a self help book with soul Soul is not something we have soul has to do with what we are with inner quality not outward expression or success or achievement Soul is not about getting happiness but about dwelling in melancholic enjoyment The way of soul is a middle way between sensualism or materialism consumerism on one hand and effete spirituality and religiosity or abstract modes of reflection including philosophizing and theologizing on the other We see soul alive in art and hear it in good music and we sing along with it in our favorite songs Soul is not spirit or an idea it is sensibility Finding harmony has to

do with developing sensibility which we need to be able to distinguish from being religious having ideas and beliefs purpose driven living self help techniques and so on Soul is deadened by techniques tech speak and method because soul is tied to creativity and inspiration and the power of now With this book I hope to open my readers to soul and soulfulness as the primary business of life **New Insights Into a Key Physical Medium** Michael C. and Levy Duffy (Joseph),2009 *Four Lectures on Relativity and Space* Charles Proteus Steinmetz,1923 Batcheller Collection **Science-fiction** Everett Franklin Bleiler,Richard Bleiler,1998 Complementing Science Fiction The Early Years which surveys science fiction published in book form from its beginnings through 1930 the present volume covers all the science fiction printed in the genre magazines Amazing Astounding and Wonder along with offshoots and minor magazines from 1926 through 1936 This is the first time this historically important literary phenomenon which stands behind the enormous modern development of science fiction has been studied thoroughly and accurately The heart of the book is a series of descriptions of all 1 835 stories published during this period plus bibliographic information Supplementing this are many useful features detailed histories of each of the magazines an issue by issue roster of contents a technical analysis of the art work brief authors biographies poetry and letter indexes a theme and motif index of approximately 30 000 entries and general indexes Science Fiction The Gernsback Years is not only indispensable for reference librarians collectors readers and scholars interested in science fiction it is also of importance to the study of popular culture during the Great Depression in the United States Most of its data which are largely based on rare and almost unobtainable sources are not available elsewhere *Cosmic Law* Lysander Hill,1916
