Form And Reason

John Demosthenes N. Ruffin

Form And Reason:

   The Gift Marcel Mauss,2002-09-10 First published in 1990 Routledge is an imprint of Taylor Francis an informa company
   An Analysis of Marcel Mauss's The Gift Elizabeth Dixon Whitaker,2017 Marcel Mauss s 1925 essay The Gift is an enduring classic of sociological and anthropological analysis by a thinker who is one of the founding fathers of modern anthropology The Gift exploits Mauss s high level analytical and interpretative skills to produce a brilliant investigation of the forms meanings and structures of gift giving across a range of societies Mauss along with many others had noted that in a wide range of societies especially those without monetary exchange or legal structures gift giving and receiving was carried out according to strict customs and unwritten laws What he sought to do in The Gift was to analyse the structures that governed how and when gifts were given received and reciprocated in order to grasp what implicit and unspoken reasons governed these structures He also wanted to apply his interpretative skills to asking what such exchanges meant in order to explore the implications his analysis might have for modern western cultures In Mauss s investigations it became clear that gift giving is in many cultures a crucial structural force binding people together in a web of reciprocal commitments generated by the laws of gifting Indeed he concluded gifts can be seen as the glue of society Provided by publisher   **The Rhetorlogue** John Demosthenes N. Ruffin,1922   **The Intellectual repository for the New Church. (July/Sept. 1817). [Continued as] The Intellectual repository and New Jerusalem magazine.    Rediscovering Reverence Ralph Ripley Heintzman,2011 A surprising and insightful work Rediscovering Reverenceoffers a rational explanation of what the modern western world calls religion and argues that it is not what most people assume Questioning western culture s evolving use of the word religion over the last five centuries Ralph Heintzman strips away misunderstandings to demonstrate that faith is not the same as belief He shows how faith is not something one has but something one does leading the reader to a deeper understanding of religious practice and its necessary place in human life Drawing on familiar experiences as well as aspects of western and eastern spiritual traditions Heintzman argues that religious practice is rooted in two basic ways human beings act in the world It is therefore an element in the structure of the human spirit not a phase in its history Explaining the meaning of religious practice in contemporary language Rediscovering

Reverenceis addressed to anyone who wants to explore the meaning and promise of a religious life A unique and thoughtful meditation on the role of reverence in everyday life Rediscovering Reverencepresents new perspectives on modern faith religion and both personal and societal well being **Annual Report** New York (State).
