Essential Colin Wilson:

The Essential Colin Wilson Colin Wilson, 1987 *The Ultimate Colin Wilson* Colin Stanley, Colin Wilson, 2019-05-14
The best of Colin Wilson in one fantastic volume. Containing extracts from Wilson's work on existentialism, criminology, psychology, and the occult, this is an invaluable introduction to one of the late twentieth century's most incisive thinkers. This is a new edition of the classic Colin Wilson collection *The Essential Colin Wilson*, first published in 1985, updated and introduced by Wilson's bibliographer Colin Stanley. It is the only book to contain extracts from Colin Wilson's most important work in one volume, including *The Outsider* (1956), *A Criminal History of Mankind* (1983), *The New Existentialism* (1966), *The Occult* (1971), *New Pathways in Psychology* (1972), and *Mysteries* (1978), as well as three of his novels and many other texts. Subjects covered include existentialism, criminology, psychology, consciousness studies, the occult, and much more. This second edition includes all of the original volume plus six essential post-1985 essays and chapters chosen by Stanley and other Colin Wilson experts, including Gary Lachman. These essays provide a much-needed update covering aspects of Wilson's work from the 28 years that followed the publication of the first edition to his death in December 2013. This is an invaluable introduction for those approaching one of the late twentieth century's most incisive thinkers for the first time, and also a timely reminder to Colin Wilson's many fans and scholars worldwide of a unique and challenging body of work. *WRITING TO SOME PURPOSE* COLIN. STANLEY, 2024 [The Work of Colin Wilson](#) Colin Stanley, 1989 **An Evolutionary Leap** Colin Stanley, 2018-03-26
When the existential philosopher Colin Wilson died in December 2013, it was suggested by one perceptive obituary writer that despite the seemingly diverse subject matter of his books, his true legacy lay in the field of Consciousness Studies. This is particularly apparent when studying his many essays and books on psychology and taking into consideration his close association with the celebrated American psychologist Abraham Maslow, whose concept of Peak Experiences (PEs) became for Wilson an important link to experiencing enhanced consciousness. Maslow, however, felt that PEs could not be induced at will. Wilson thought otherwise and through his work sought to encourage his readers and students to live more vital and appreciative lives, thereby paving the way toward an evolutionary leap for mankind in consciousness, indeed a change in consciousness that would potentially change everything. In this study, Colin Stanley, Wilson's bibliographer and author of *Colin Wilson's Outsider Cycle: A Guide for Students* and *Colin Wilson's Occult Trilogy: A Guide for Students*, provides an illuminating essay on each of Wilson's nine major books on psychology. **The Essentials of Universalism** Nicholas Hagger, 2024-10-29
In *A Baroque Vision*, Nicholas Hagger chose key passages from his verse that convey the thread of his Baroque vision. In its companion volume *The Essentials of Universalism*, he chooses key passages from his prose works that convey the thread of his Universalism, which grew out of his Baroque perspective. Hagger's literary, mystical, religious, philosophical, historical, cultural, and political Universalist writings are innovative. In 60 books, he has set out a new approach to literature and identified its fundamental theme as a quest for the One, an infinite Reality perceived as Light that alternates

with condemnation of social follies and vices presented many mystics illuminations seen the Light as the common essence of all religions created a new philosophy of Universalism that restates the unity of the universe and challenges modern philosophy charted the history of the rise and fall of civilisations reconciled the divisions within world culture and proposed a democratic World State with limited supranational power to abolish war and bring in a Golden Age of peace and prosperity The Essentials of Universalism is a stunning anthology of his writings that covers all aspects of his thinking and range Chosen by the author himself the excerpts include the most important passages in the Hagger canon and are representative of his vast output Since the book was completed Hagger has brought out The Algorithm of Creation the first ever statement of a Theory of Everything and a further development of his Universalism This anthology makes clear the main thrust of his life s work and is required reading for all interested in seeing how his many innovations connect

Colin Wilson, a Celebration Colin Stanley,1988 [Around the Outsider](#) Colin Stanley,2011-05-16 In May 1956 aged just 24 Colin Wilson achieved success and overnight fame with his philosophical study of alienation and transcendence in modern literature and thought The Outsider Fifty four years on and never out of print in English the book is still widely read and discussed having been translated into over thirty languages In a remarkably prolific career Wilson a true polymath has since written over 170 titles novels plays and non fiction on a variety of subjects This volume brings together twenty essays by scholars of Colin Wilson s work worldwide and is published in his honour to mark the author s 80th birthday Each contributor has provided an essay on their favourite Wilson book or the one they consider to be the most significant The result is a varied and stimulating assessment of Wilson s writings on philosophy psychology literature criminology and the occult with critical appraisals of four of his most thought provoking novels Altogether a fitting tribute to a writer

Collected Prefaces Nicholas Hagger,2022-04-29 Nicholas Hagger s 55 books include innovatory works on literature history philosophy and international politics In his first published literary work he revived the Preface which had fallen into disuse after Wordsworth and Shelley He went on to write Prefaces sometimes called Prologues Introductions or Introductory Notes for all his subsequent books Collected Prefaces a collection of 55 Prefaces excluding the Preface to this book sets out his thinking and the reader can follow the development of his philosophy of Universalism of which he is the main exponent his literary approach particularly his combination of Romanticism and Classicism which he calls neo Baroque and his metaphysical thinking His Prefaces can be read as essays and as in T S Eliot s Selected Essays there is an interaction between adjacent Prefaces that brings an entirely new perspective to Hagger s works These Prefaces cover an enormous range Nicholas Hagger is a Renaissance man at home in many disciplines His Universalism focuses on humankind s relationship to the whole universe as reflected in seven key disciplines seen as wholes the whole of literature history philosophy and the sciences mysticism religion international politics and statecraft and world culture Behind all the Prefaces is Hagger s fundamental perception of the unity of the universe as the One and of humankind s position in it These Prefaces complement his Selected Letters a companion volume

also published by O Books and contain startling insights that illumine and send readers to the works the Prefaces introduce
